Precis: Undoubtedly, money is the need of an hour however it is not the primary purpose for a well educated, intellectual, or brave man. Healthy minded people primarily enjoy winning or completing their work rather than aiming for making money from it. Be it soldier, who wishes to win the battle first instead of getting paid. Be it clergyman, who preaches because he loves doing it instead of getting paid for his preaches. Be it a doctor, who desires to care his patient first. Thus for all well-educated person work comes first.
