## Quiz

- 1) Most of us make New Year resolution but not all can carry them out. It is mostly because we enthusiastically decide to do impractical things that are too hard to achieve and not keep it to ourselves. Telling other people about the resolution also make the pressure immense and hence makes the resolution unachievable.
- 2) People should not tell others about their resolution because if we cannot fulfill it the fear of embarrassment compels us to lie. Hence, making us frustrated.
- 3) The writer could not carry out his resolution on New Year's day as he was busy in an overnight party and could not exercise.
