Q: Write a precis of the following passage and also suggest a suitable title?

Title: First priority of professionals.

A wise educated person keeps his job first rather than money. Healthy people love their food but still it is not their primary need. Similarly, a good soldier always wants to win the battle. He is also happy with his income but not more than his passion of winning battles, even he can ignore his food too for it. Furthermore, the clergyman only wants to preach and a doctor's wish is to cure their patients even they are not paid for it. Hence, the first and foremost priority of all well-educated and righteous persons is their duty and secondly their pay.
