

## ⇒ Translation

You are virtuous if the world does not attract you; tears come to your eyes because of the fear of Allah; the concept of hell creates fear of Almighty in you; you worship Allah the way it should be done; good deeds attract you, and your feet stop you to do wrong. Some are virtuous and some try to become virtuous. It is matter of luck to be virtuous. It is the continuous process of tazkiya and mujahida. It takes time and pain.
