

Translation:

If the world does not attract you towards itself, if your eyes get tears by the fear of God, if contemplation of Hell creates the fear of Allah in you, if you do the worship of Allah as it should be done, if goodness persuades you towards itself and your feet remained abstain from going on the way of bad deeds than you are virtuous. Some are already angelic and some are made. Being pious is a good luck. To be pious is a process of continuous purification and warriorism. It takes time and have to bear pain.

Shahin Baro Malik
