Title : Money as a Second Priority

Money is not all in all for a good person. It is just like healthy food for him, which can make him healthy but not keep him alive forever. A good soldier's main mission is to win and fight in battles, not to earn a good salary, except in case of long delays in payment. Similarly, clergymen and doctors share the same ~~thought~~ mindset, focusing on saving other people's lives, not to earning high fees. Hence, for intelligent individuals, money can be a secondary priority, but not the primary one.

Intellectual

Just give an essence of examples, do not elaborate it

Good Ideas are fine  
Keep the examples precise
