Improve
punctuation.

More important than money

Indent the paragraph

It is physically impossible for a well educated, intellectual or brave man that money would be the main objective of his life. All the healthy people like money, but they might like something ~~more~~ better than money. ~~Some examples are:~~ a soldier's main goal would be to win a battle, the clergyman's to baptize and preach. Similarly the doctor's main goal would be to save lives. So, for all educated men, their work ~~would~~ comes first and fee second, however ^{it is} it's important.

Avoid enlisting

Do not explain all three examples separately, rather give an essence
