A Job IS More Important than Making Money.

start is incorrect

use a/an the for the start

Making money is not as important for an intellectual human. They enjoy their dinner but it is not their main goal. Like, A Soldier, wants to win his fight. Getting paid is not his main objective. Likewise, a clergy man's mission is to spread religion, not getting money. Likewise, Doctors do charge their fees but firstly they save humans' life. Although some kind hearted doctors low their fees for the betterment of patients. So, All righteous & brave men put their job first and money secondary.

88 words

main idea is picked

too much detail unnecessary use of words

don't use symbols like % & in precise over all average content

7/20

not impressive
