Title: Work over money

Clarify it

Work is more important than money for ^{intellectual} cultured people. A healthy man like dinner but main objective of their life is profession rather than earning bread and butter. A soldier fights bravely not for the pay but to win the battle. As Clergyman aims to baptize or guide not for money but for the welfare of mankind. Likewise, a doctor desires to cure his patient than to get fee. Thus, for all brave and educated people, fee is much ~~more~~ important but comes second, their duty is first.

Do not add idiom

Do not elaborate the example, just give an essence

Rephrase it

Suggested titles for yesterday's preci

"Money is not the End"

"Profession as a priority over money"

(87 words)

Suggestions for improvements:

Do not make complex compound sentences

Begin and end precis with a precise sentence

Avoid enlisting

Do not explain all three examples separately, rather give an essence
