

Eagles Fly against the wind.

OUTLINE:

1) Why eagles fly against the wind?

- a) The strong person has the capacity to break the norms of society.
- b) An individual takes punitive action against norms. Because, he has a clear goal.
- c) Life experiences are also serves a factors, that's why people use different pathway.
- d) Different mind setup is also a reason for the people.
- e) State design many development project to increase their hegemony just like China.
- f) Clear purpose of life is the main reason.

2) What are the key components of how to combat challenges in a way of eagle?

- a) Hardworking is the best tool to combat against challenges.
- b) Consistency is a way of success.
- c) Failures are the pillars of success.
- d) Ignore the distraction which comes in the life.
- e) Engage with ^{the} positive people is also a factor.
- f) Trust on Allah (SWT) is the best tool to fight against problems.

3) Why some people do not ^{go to} use different pathway?

- a) Fear from the failures are the major obstacle.
- b) To maintain their reputation in the society.

c) They do not ready for the pain of these problems.

d) They want to spend their whole life in a form of pleasure.

e) Public opinions are matters a lot for him.

"There is only one road to human greatness:
through the school of hard knocks."

(Albert Einstein)

Greatness of human race cannot achieve without the hardknocks. Short cuts are only source of temporary pleasure. Hardworking is the best tool for the success of life. It is a universal law that hardworking pays back. A single dot of hardworking do not waste. The secret of a successful person is to choose a tough path of life. Within the hardworking, he conquers his goal in the life. The goals and mind makeup of successful person are different from the normal person. Through hardworking, consistency and learn from failures, they achieve their goals. On the other hand, normal people do not choose a different path. They have their fears. These fears and so on are major issues that is why they do not choose tough path in their life. A successful person always want to flies like a eagle. He uses their problems like an energy not problems. In the same manner, eagles fight against the wind. Life experiences and mind make up are also the source, why they are choosing different pathways.

A successful person uses techniques such as hardworking and consistency to combat their problems. On the other hand, a normal person does not take punitive action against norms of society.

The strong person has the capacity to break the norms of a society.

The norms of society such as creed, caste and colour are the pillars of society for traditionalist. But, a strong person has a courage to do what he wants.

For example, a Bhagat Singh who openly fought against British rule. He broke the norms and values of British society. He wanted an independent country for the Indians.

A clear goal are the pillar of punitive actions. When an individual has clear goal in their life. He loves to take punitive actions. Goals and planning are the components of success in the life.

Life experiences are also serves as a factor that is why people use different pathways. The life experiences are the major factor which shapes your personality in a manner. Everyone has different experiences in the life. For example, an individual wants to make an organization in the life for the women rights. He faced severe domestic violence in his childhood.

These experiences becomes the source
of their goal. In a nutshell, their life
experiences has enabled him to make
an organization for the women rights.
Different mind set up is also a reason
for the people of choosing different
pathway. The different mind set up of
people of different background faces
difficulties to work together. For example,
in the sub-continent, Hindus and Muslims
have different mind set up. Both nations
are belong to different background.
That is why, Quaid-e-Azam Muhammad
Ali Jinnah wanted an independent
country for muslims. Its become the
Quaid goals. So, different mind set up
are also the pathway of choosing
different goals.

States design many developmental
projects just to increase the global hegemony.
For example, China does not involves in
the war with the different countries. China
protects the sovereignty of other countries.
While other countries involves in the
war. China strengthen their relation with
different countries by develop developmental
projects. For instances, China signed a
CAPEIC agreement with the Afghanistan.
So, China used a different strategy
to increase the global hegemony in
the global arena.

Clear purpose of life is the main
reason why people choose different
task for the life. In the same manner,
eagles fly against the wind. For

example, the goal of Hazrat Muhammad (S.A.W.W) was very clear towards life. He did not think about Arab people. He spend their life according to commands of Allah (SWT). He is the best example of humanity. He did not follow the orders of Arab people. So, a clear purpose of life is the main reason for tough task.

Hardworking is the best tool to combat against challenges. A single dot of hardworking do not waste. A universal fact is that the hardworking pay back in the life. For example, a Thomas Edison was the most hard worker in that time. He did their best to achieve his goals. His hard working was paid off to him.

Consistency is a way of success. Some people fail, because they accept their failures in a form of loss. They step back from hardworking in the early stage of life. Consistency is the key of success. On the other hand, an individual who do their work consistently. He will achieve their goals ultimately in the life.

Learning from the failures are the pillars of success. Failures comes in every part of life. Every individual faces failure in their life. But those people are successful in their life who learn from their failure. Failures are the factors which shapes your personality. For example,

a person who learn from their mistakes.

He improves their mistakes and learn from it. A success comes in his life.

Distraction are comes in the path of every individual. The major distraction in modern era is social media. Social media has imparts a negative impact on the health. An individual who spent about 8-10 hours on social media. The radiation comes from the mobile are the major cause of eye problems. Avoid the distraction as much as can. The distraction are only ^{ways of} time wasting. A passionate person avoids distraction very easily.

Trust on Allah (SWT) is the best tool to fight against problem. No matter what the situation is it trust on Allah (SWT). Allah said in the Quran, those peoples are successfull who trust on him in the difficult phase of life. The biggest problems are very small in front of Allah (SWT). Talking to Allah (SWT) is the best solution for the problems. For examples, Hazrat Ya'qoob (A.S) cried very badly when his sons told about him about Hazrat Yusuf (A.S). But he replied him, I told my problem only to Allah (SWT). So this type of trust is required to combat with the problems.

Fear from the failures are the major obstacle. A normal person was also follow only the norms of society. He was fearful from the failures. He thought that failures is the stopping point of their life. He is not learning from their failures. Reputation is very important in his view of life. To maintain their reputation in the life, he loves to follow the so-called ways of life. The standards are very important in his point of view. He does not takes actions which ruins their reputation.

They do not take ready to take the pain of the problem. A normal person does not successful in his life because he is never get ready to experience the pain. Pain is the key of success. They are not ready to get out of their comfort zone.

They want to spend their life in a form of pleasure. A normal person loves to follow their so called routine of life to enjoy their pleasure. He is not ready to take actions against his pleasure. He does not have a goal to live their life. As a result of their pleasure, no body remembers him when he died.

Public opinions are matters a lot
For him. The opinion of peoples do
not define you what you are.
But those people who feels fears
about their life. In their life, public
opinions matters a lot in their
life. A normal person works their
best to please the people. But
in the end, the peoples do not
feel happy by their works.
At the end, a successful person
always get what he want in his
life when he moves against the
wind. So, the purpose of life is
to ^{do} different things against
society norms. The obstacles serves
as the energy in the life.
