

## Title: Role of Courage: Difficulties of life.

Courage is one of the essential element for doing any task. A man can face any kind of difficult situation in his life only by the dis of courage. A person commits a lot of blunders only because of the absence of courage. The History showed that the great warrior got victory even they were sick. Age also does not play any role in for warriors. It is a kind of myth that only young man can fight war. History showed that both young and old warriors at the age of 15 and 70 recieved award of the victory only because of self good direction and the power of will. However, a man can fight great wars only by the power of General will.
