Q2)

What makes a Good General?

A general must be calm, composed and brave. Voltaire also deemed such qualities to be important for a general. Joffre was also known for such qualities. Though health is essential for a general too, it is not an absolute quality, for example Napoleon, even if ill, would be more dangerous than some other healthy generals. Moreover, high morale can compensate for poor physical health. Another important debate regarding generals is related to tradeoff between their youth and their experience. Examples of Wellington, Napoleon, Hannibal, Wolfe and Alexander support the proposition that youth is preferred over experience. However, some other great generals in history such as Caesar, Cromwell, Marlborough, Turenne, and Roberts achieved their greatest victories relatively late in life. Furthermore, some of the great generals joined military at a young age. Though it is difficult to quantify the trade-off between youth and experience, an experienced general with certain ~~quant~~ qualities will be at an advantage, but typically, a young command ~~to~~ will be able to defeat an older commander. Hence, the decision to lower age limit for generals has merits.
