

Political stability is mandatory for Economic Prosperity in Pakistan Elaborate?

### Introduction:

Political instability weakens the economical growth rate

Political inst. negatively impacted the economic life, ↑ Inflation, ↓ FDIs, ↑ corruption & poverty

As from 1999 when military regime existed, the civil govt, the economy grows

It shows that during political instability economic growth of the country remains slow.

Good governance is one of the most important factor in economic growth & social wellbeing. ~ Joe Longdale

### Relationship b/w Political & Economic Prosperity

Pol. stab. means when the political system continues without any interruption.

e.g.:- Regular holding of elections.

Strengthening legislative, executive & judiciary.

Non interference of political actors in administrative machinery of state.

Economic prosperity implies improvement in economic conditions of people, their living standards and jobs.

The economy in support of well ensures

Steady growth

There is an obvious link b/w the two.

1. Give numbering to headings.
2. Do not write lengthy paragraphs. Write medium sized paragraphs with headings.
3. There should be around 15 headings for 20 marks question.
4. Draw figures/diagram/flowchart where needed.
5. Start new question from fresh page.
6. Each answer should start with Introduction and end with Conclusion.
7. Give more weightage to expressly asked part/s of the question.
8. Change colour scheme for references to give them more visibility.
9. Manage time well.
10. Wide page borders are discouraged. Should be reasonable.
11. Avoid writing wrong references.

without political stability there can be no economic prosperity (...), that's the bottom line" ~ Ray Jovanovich

Persistent Situation of Political Instability in Pakistan and its impacts :-

Pak experiencing fluctuating growth rate since 1970 → great political turmoil <sup>result in</sup> war even today weak pol. institutions left loopholes in country's political system which are being exploited by <sup>non political actors</sup> <sup>characteristic</sup> the Islamic constitution to create violent protest in capital territory. It affect the country law and order, increase extremism and violence. It brings instability resulting in economic growth.

Pak GDP has fluctuated b/w 5% { 2.1 for decades due to political instability.

The biggest challenge of Pakistan <sup>how</sup> to improve our state institutions and governance, so we can tap our potential.   
- Imran Khan

How is political stability mandatory for economic prosperity in Pakistan?

Political instability has caused multiple problems for Pakistan, including a lack of FDI, vulnerable law and order situation rampant corruption and nepotism and interference of military elites in the country's political system.   
Pak need necessity of pol. stability for economic development in Pakistan.

without political stability there can be no economic prosperity (...), that's the bottom line, ~ Ray Jovanovich

## Persistent Situation of Political Instability in Pakistan and its impacts :-

Pak is experiencing fluctuating growth rate since 1970 → great political turmoil <sup>result in</sup> war even today weak pol. institutions left loopholes in country's political system which are being exploited by non political actors. TLP exploit the Islamic <sup>character by</sup> institution to create violent protest in capital territory. It affect the country law and order, increase extremism and violence. It brings instability resulting in economic growth.

Pak GDP has fluctuated b/w 5% }  
2.1 for decades due to political instability.

The biggest challenge of Pakistan to improve <sup>how</sup> our state institutions and governance, so we can tap our potential.

— Imron Khan

How is political stability mandatory for economic prosperity in Pakistan?

Political instability has caused multiple problems for Pakistan, including a lack of FDI, vulnerable law and order situation rampant corruption and nepotism and interference of military elites in the country's political system.  
Pak need necessity of pol. stability for economic development in Pakistan.

## The smooth running of state with proper implementation of policies is:

- Economic growth in Pak. can't be achieved if country's policies are not executed religiously.
- The gap b/w theory and practice creates room for uncertainty.

"Developing policies with a lack of implementation is like planting a tree that doesn't produce a fruit"

## 2. Increase productivity & employment opportunities

Economy can be uplift through increased productivity of industrial units and creation of employment opportunities, improved law & order → industrial units working in the country work efficiently  
↑ productivity & yield, enhance the supply and exports of Pakistan, generate employment opportunities for people.  
These positive impacts help economy of Pak to grow.

## 3. Monitoring of institutional efficiencies:

Efficient monitoring of institutions helps its economy.  
It rampant nepotism and corruption

## 4. Making efficient long-term policies for handling of resources

Efficient handling of country's natural resources due to govt's long-term policies.

of long-term discards the previous policies<sup>as</sup> incumbent govt opted for short-term policies which proved futile in long run.

**Creating an environment conducive for investment:**  
Political stability → attract Foreign investment.  
Pragmatic way for economic development.  
lack of Pol. stab. worsened law & order situation result in low FDI. Economy became aid driven.

### How political stability be attained in PAKISTAN?

- Take pragmatic steps to attain Pol. stab. & Economic stability & Prosperity.
- Independent Judiciary (non biased/neutral)
- Separation of power among pillar of state should be followed in true spirit.
- National interest above personal.
- Effective monitoring system
- Law & order to be managed well to deter notorious elements of society such as extremist religious groups.

### Critical Analysis:-

Various elements responsible for the worsened political scenario of country.

- 1) Role of military leadership interfering in country's Pol. Affairs.  
initially by martial law now backstage manoeuvres in system.
- 2) Power play b/w opposition party & govt impacted country's Pol. system objective is to gain power & seat.  
These hinder economic growth.

## Conclusion:-

Q1 In a nutshell, pol. stability is a prerequisite to economic prosperity. The frequent switch <sup>of policies</sup> <sub>(damages)</sub> negatively affecting economic performance. Despite enormous economic resource, it remained in dark shadows, pol. instability has flourished corruption & lack of efficient administration.

It's time to take immediate action for stable political system to enhance chances of investment, employment & productivity.

2

You did not discuss how foreign aid is not the answer.

## Q # 2 : Growth of Population in Pakistan

### Introduction :-

Pakistan faces a major socio-economic problems due to the rapidly growing population causing illiteracy, unemployment, patriarchal society and alot more. Pakistan faces significant social, political and economic problems due to the uncontrollable population growth rate. Pakistan is the 5th most populous country. According to the digital census of 2023, Pakistan population has increased to 241.49 million with an annual growth rate of 2.55%. Over population led country to the brink of economic explosion. It holds negative consequence for the development of a country.

### Impacts of Over population

Increase population targets the living standards as it give rise to increase the demand of basic necessity in life. As Pakistan is economically struggling nation it disturb the standard of life. Over population also give rise to

unemployment as the large number of people want labour, the economic straggled country can't provide employment contributing to social inequality. It also causes poverty due to the downfall of economy and population crisis.

lack of food leads to undernourishment  
reduces people's productivity. The unequal  
use of natural resources also affect population  
Pakistan needs to encounter the shortage of  
natural resources.

When the population rises the agricultural  
land is used to build houses, educational institute,  
hospital. Thus misfitting in less agricultural  
growth. It gives rise to the scarcity of  
resources, but the burden on country's  
economy and the increase of crimes  
in the society.

(Causes of population Explosion)

→ Overpopulation weakens the unity among  
people. Also population growth is the  
primary source of environmental damage  
Overpopulation leads to the crisis of illiteracy  
and then especially women's education.  
The educated and learned women know  
a lot about the family planning services and  
her unaware remains the culprit behind  
the population growth.

The rise of poverty, unemployment, Patriarchal  
society caused by over population.  
No efficient policy measures were taken  
by government to take control on these  
problems

Poor structure of answer  
here. Write subheadings  
for this section.

## → Solutions

The problem of population explosion can  
be tackled by efficient measures.

### 1. Efficient family measures:

Such family planning programmes could  
give awareness about the birth control to  
improve the access to the basic demands

2. Empowerment of women through education  
It act as a catalyst to reduce the fertility rate in Pakistan. Educated women wants fewer childrens. Govt should ensure to empower women to diminish the cause of over population.

By empowering women and improving health, population growth comes down  
— Bill Gates

### 3. Poverty Reduction Policies:-

Government must plan short and long term poverty reduction strategies to improve the living standards of people

### 4. Strict action against child labour practices

In order to reduce the population growth rate government must impose restrictions on child work. It can save the future of many childrens and control this issue at the same time

### → Conclusion:-

It is clear that the rapid rise of population becomes a serious challenge for the economy of Pakistan. It shows the failure of government to implement such policies to control the unchecked population growth. It should be addressed immediately. It would leads the country to better employment opportunities, economic stability, improved security and prosperity.

# National Integration of Pakistan

1 - Need: National Integration is a centripetal social force.

- A sense of oneness in society.
- Blends varying national strands into a singular social fabric.
- Builds a unified national front against internal and external challenges.
