into reality.

We are the slaves of our minds.

We think and assumes reality according to our perception.

Before every boxing match, I used to stand in front of mirror, and used ^{irrelevant}

say loudly to myself: I am the champion!

I am the hero!, I am the champion!,

I am the hero!. " (Boxer, M. Ali)

Successful people trick their mind according to need. We just need to train our minds.

We are no less than anybody. ^{irrelevant}

Everyone is perfect in his ^{The paragraph has no coherence and no structure}

way. We are eagles, living with hens. Once upon a time, there

was an eagle's child was captured.

And living in cage with hens. He

did not know how to fly. But, that

does not mean, he can't fly. We all

are eagles living with hens. We

just need to know our potential.

We all are best.

I often saw people mourning
 on the failures of life. I saw people
 blaming parents, friends, events
 and even God. But reality is opposite.
 We write our destiny! It's our
 actions that are writing our destiny.
 "Actions make life hell or heaven,
 human is nothing in it's destiny."
 (Allama M. Iqbal). Accurate your
 actions, results will be fruitful.
 Whenever, we decide to do something,
 several fears come into mind. These
 fears are the hurdles in our
 success. We can't even take
 next step in fear. These fears might
 be failure, people, society and list
 goes on and on. "In our society,
 we think a lot before doing anything
 in life. We are afraid of what will people
 say? I am very fearful, I don't
 think about anybody." (Ahsan Khan)
 Award winning Actress, Saba Qamar
 So, we don't to fear at all.

You are writing an essay not a motivational speech

Just make decision by our own emotional intelligence.

We are overthinking alot. We are thinking what will happen after we fail! Nothing will happen after failure. There was a little boy with his horse. He was in forest in dark night. He was scared and overthinking. Boy said to horse, I can't see the next steps due to darkness. I can't reach destination. Horse replied: can you see next step? He said yes! Horse exclaimed! just take the next ^{one} coming step. We just need to take the ~~very~~ next step, ignoring the darkness.

If we have dreams, we should courage to achieve them. We should succeed or simply die in the struggle of success. We don't have any other option. Salah-hud-Din Aubi crossed the sea with his soldiers. And he fired all

the boats. He said to his army:
You have to succeed or die
here. You have no option to go
back. And, they won that battle.
Being an eagle, we don't have
the option to fail.

Atleast, nobody should fail in
2023. We can learn anything,
just in one click. We have youtube
, Google and what not. Now, we
have no excuses to fail. If
we fail in 2023, it will be the
most embarrassing. People of stone
age will laugh on us. Atleast,
failure is not meant for us.
Whenever, we try to fly there
are winds. These winds refrain
us from flying. But these winds
are only our minds. Only we
are limiting ourselves.
