Question No 2:

Answer:

In india begging become profession. Some cities in which the cities are called cities of buggers. They are countless and have to find existence of buggers. Question is how they live and their effect on society. Indians and the foreigners come to india are giving them money and increasing them. Religious places are main points of the buggers. People gave them charity this is main cause of increasing begers. They wear colorful clothes and go home to home regularly and collect a huge amount. In developed countries begging is a crime and they say those who do not work cannot eat. Poverty is the main cause but govt should practice some laws against buggers otherwise they will increase day by day not in holy cities rather in whole country. Modern or local buggers all should be banned.
