Begging in India : a social
 Conundrum

~~Rise of Begging in India~~

The profession of begging
 has ~~much increased in India~~
 that ~~some of its cities~~ called
 as 'cities of beggars'. The ~~main~~
 focus is to find the ~~conditions~~
 in which they live and its
 impact on society. The main

Has become more prevalent

cause behind the profession of begging is that people are much eager to do charity in order to seek salvation - as their religion teaches them. Moreover, these beggars adopt this profession from their elders. They are trained for begging, despite having abilities to do something else. Furthermore, beggars get benefit from the induced fear in the rich class. Resultantly, in some cases they are more richer than their masters. India needs to consider this issue at an urgency. Many causes prevent from eradicating it from roots, but leaving the profession of beggary among the beggars is at the forefront. The state should take actions as it only giving the free hands to the beggars. Moreover, there is a need to stop charity to those who can earn for themselves.
