\*⇒ Conclusion.

DATE: \_\_\_/\_\_\_/\_\_\_

In today's world corruption is the major and chronic problem in the world. Corruption is spreading like a disease in the world. It is the corruption which destroys the nations and a huge hurdle in the developing of a nation. Corruption causes an unprecedented loss to a country's economy. Those nations which are eliminating the pandemic of corruption are the developed nations in the world.

In those countries where there is corruption in their system are unable to move forward and to catch their development goals. In a society where corruption is occurring there is no trust of the public on the government institutions, and there is no merit system. ~~but~~ ~~all~~ ~~the~~ ~~affairs~~ ~~are~~ ~~in~~

Corruption has many different types, for instance money, infrastructural corruption, ~~recruitment~~ corruption in recruitment, no merit in corrupt society, no work on time, no meritocracy etc. It is also called a white collar crime. Corruption makes the world ill because no one can do work without corruption and in corrupt society, they called

their right. In the world where there is corruption there is no merit and all favoritism, nepotism at his peak.

Corruption as a worst disease in the world ~~that~~ means that corruption shaped as a disease in the world and spread everywhere in the world. The control ~~of~~ of this disease at earlier stages are ~~more~~ most important because it is the corruption which destroys the nations slowly and gradually.

Corruption spread in the whole world like a pandemic which is a very cronic and alarming situation in the world. It is the corruption which makes a nations destroy ~~is~~ and cannot move forward to a developpe and to acheive their goals. As per Transparency international report 2023, the ratio of corruption in the world are increase. <sup>Horris</sup> The spreading of corruption in the world is like a disease in the world.

Corruption caused a death to meritocracy. Due to corruption in the world system there is

DATE: \_\_\_/\_\_\_/\_\_\_

no merit in the society. A corruption closed the door of merit in the system. ~~through which any merit work is done by~~ In a society where there is corruption there is no public trust on the system. According to the BBC the corruption in the world are causing trust deficit in a society. Hence, the death of merit because of corruption is a major issue.

The economic destructions by the corruption is a major issue in the world. A corrupt system can cause the huge loss to a country economy. As per world Economic Forum WEF, in those countries which are at the top list in a corruption index has destroy their economy by corruption. Corruption is disease and make loss to a country economy. Therefore, the corruption has ~~to~~ destroying the economic structure of a country.

There is a lack of trust by the public on the government institutions by corruption. The trust deficit is caused by corruption in the society. As per the economist the public has to decrease trust

trust on the government functionaries. It is a chronic issue where the ~~prob~~ the government institutions has lost the public trust. Hence the trust by the people on governmental institutions has lost is an alarming.

A strict laws to be made to control the disease of corruption in the world. Without strict punishments in this regards the pandemic of ~~the~~ the corruption will spread day by day. The ~~pr~~ President of Kenya has been convicted by the supreme court in the charges of corruption. Where the strict laws are implemented in true spirit there would be less corruption.

~~Deq~~  
Digitalized the governmental infrastructure to encounter the corruption in the world. In this era of digitalization the corruption has also ~~make a~~ ~~shape of~~ did through modern ways. In the earlier earlier world there would be more corruption but now in the era of digitalization it makes hurdles in this

regards. so, ~~the~~ to digitalized the system it can be a positive play a positive role in this regards.

The strenthens of an Anti corruption department is very important to control the disease of corruption in the world. when there is a strict ~~and~~ accountability of the corrupt people they would be discourage. As per the transparency international report China has the world strict anti Corruption department with high ratio of ~~cases~~ prosecution. The strict laws discourage the corruption in the society. Therefore, a concrete and hard anti corruption department has play a vital role to eliminate corruption in the world.

The establishment of an Anti corruption court is also important to control the disease of the corruption in the world. The more ratio of conviction in regard of corruption can help in eliminating the evils of corruption. As per the the prosecutor of the International Criminal court Mr. Karim Khan

DATE: \_\_\_/\_\_\_/\_\_\_

stated that "the more conviction the less corruption." The ratio of more conviction can eliminate the evil of corruption in the world. Hence, to strengthen and develop the special courts in regards of corruption can help to decrease the corruption.

In conclusion, the corruption has play a negative and destructive role in the world. A corrupt nations cannot move towards a prosperous world. To eliminate corruption the strengthen of the Anti Corruption departments and the establishment of the special courts can play a vital role to eliminate the white collar crime in the world. It is not too difficult to established these institutions but are the need of the time. Hence, the disease of corruption can be eliminated ~~through~~ and the step forward to a prosperous and peaceful world.
