

4) NATIONS DO NOT DIE FROM
INVASION; THEY DIE FROM INTERNAL
ROTTENNESS

Outline:

Introduction:

2) Resolution of internal conflicts is
key to open lock of prosperity of a
country

3) How external invasions are
not main cause of country crisis

3a) Afghanistan situation has not
improved even after US and Russia
withdrawal from country
(Collapsing economy is depriving
20 million Afghans of food.)

3b) Pakistan is facing difficult times
even of no external attacks.
(Pakistan 24th deal with IMF for
\$7 billion bailout in July 2024)

3c) Bangladesh's government has
shattered as aftermath of students
based job quota protests
(Bangladesh President Sheikh
Haseina resigned and exiled on
5 August, 2024)

3d) There are citizenship based
protests of Muslims and student
based protests in India, destabilizing
its harmony.)

4) How People die from internal conflicts in Pakistan

4a) Political polarisation in Pakistan is major detrimental factor for people of Pakistan. It leads to economic crisis which affect people (Imran Khan was removed as PM before completing its tenure by vote of no confidence in 2022)

4b) Militants in north waziristan, BLA (Baluchistan Liberation Army) and TTP are spreading terrorism in country).

(On 16 December, 2024, TTP attack on Army Public School Peshawar)

4c) Separatist movements inside country are damaging development projects like CPEC, as result of not fulfilling their separation demands.

(On 20 March, 2024, Gwader port was attacked by BLA)

5) External Invasions also damage country

1 - Israel - Palestine conflict has killed at least 40,099 people in Gaza till 19 August, 2024

2 - Russia - Ukraine war death toll is increasing day by day

3 - India attacks in Kashmir has killed a lot of people.

6) How people die from internal plights worldwide

6a) There are severe protests in UK (United Kingdom) after girls assassination by boy who was blamed muslim.

6b) Serious food crisis in Afghanistan. People are dying from hunger in impoverished state.

6c) Agriculture Himalaya farms are captured by Indians in occupied Kashmir, causing children death from hunger and poverty in Srinagar, Indian Occupied Kashmir.

6d) There was death of students hope in Bangladesh after Sheikh Hasina, Bangladesh president passed resolution of special quota for freedom fighters of country.

6e) Nearly 55 million are facing severe hunger in west Africa and central Africa.

6f) Climate crisis is threatening 4 million people in Latin America.

Way forward to Resolve internal plights of country

7a) There are sustainable development goals of eliminating poverty, zero hunger and peace worldwide. Countries should cooperate to achieve them by 2030, for better situation of their countries.

7b) United Nations organization is an international organization determined to resolve internal conflicts.

7c) Conference of parties meeting annually held to support climate hit countries (Flood in Pakistan from 15 June to October 2022 was discussed in COP28)

7d) There should be transparent elections and political sustainability inside country.

7e) Bans should be imposed on leaving party and removing heads of official before tenure completion.

7f) Strong economic reforms in country to nip evil of poverty in bud.

Conclusion

Bangladesh president Sheikh Hasina showed special sympathy for generation of freedom fighters in 1971. She specified special quota for them in civil services jobs. It caused riots among other people when they were declared "Razakar" (oppressors) by Sheikh Hasina. It led to strong protests inside country which enforced Sheikh Hasina and other government officials to not only resign but also exile. As result of this, military strikes on people which killed 300 people in a month after protests start in 2024. Internal conflicts are due to no unity among people on same motive. These common people or politicians, students, always lead to destabilize country. External attacks are always secondary cause of destruction. Other countries rush to hegemonize a country when it is weak inside because of disunity among its people and government failure.

When there is no political polarization in country, politicians advance towards liberalism instead of realism. They focus on cooperation of mutual benefits instead of struggling for power. When a state leader is assured of its tenure completion, it works for country progress with dedication.

Xi Jinping: President of China, Joe Biden and Trump of US, Tayyip Erdogan of Turkey are ruling on their countries since long time. It is 3rd term of India PM ~~President~~ Modi which has made India, ~~the~~ fifth largest economy of world. It is long duration of Xi Jinping which forced him to start game changing projects like CPEC. It is political stability inside US, India and China which have made them largest economies today. They have resolved their internal conflicts in previous century. But

some countries like Pakistan is travelling on train of time with internal conflicts, which are hindering their progress.

After Geneva agreement, Russia withdrew its forces from Afghanistan. After Doha Agreement, US withdrew its forces from Afghanistan. But Afghanistan is still facing severe crisis. It is because of internal weak policies of Taliban. It is their resistant behaviour towards diplomacy and attack on projects like Salma dam for hostility with neighbouring countries.

It is happening 24th time since creation of Pakistan that Pakistan is knocking doors of IMF for bailout instead of pushing towards economic

Friendship conflicts have seeds

There is serious inflation in Pakistan causing it difficult for public to spend even a common way of life by fulfilling their basic needs. Because of relying on wheat of Ukraine and oil of Russia, Iran, Pakistan is now worst hit of economic crisis because of war and sanctions in those countries. Pakistan not needs external attacks for catastrophe, its ~~state~~ going internal conflicts will be enough for its expected default.

President of Bangladesh Sheikh Hasina, longest serving female prime minister in whole world and Bangladesh was declaring dictator by its nation. Large number of people disappeared during its reign as result of intervention in her wrong and biased policies.

Recently, India had passed citizenship law in which

muslims were not mentioned.
There is twice population
of muslims in India as in
Pakistan. What they can do
is except going for protest
against government? which
is making India image
bad and destabilizing it.
There are 30,000 rape cases
of Indian female students
inside their institutions
and major cause of riot
, assassination of female
doctor, Aaruna, a Kolkata doctor
after gang rape.

There are political riots
based killing and sectarian
based killings in Pakistan.
BLA and TTP^{are} demanding their
hegemony by harming
country. BLA are attacking
CPEC projects based Orakel
post in Baluchistan instead
of knowing poor economic
conditions prevailed in
country. All matter for
them is their hegemony.

External conflicts have seeds to grow plants of genocide not only in involved countries but also affect neighbouring countries. Israel - Gaza conflict is not only killing people inside these countries but also in other middle east countries. Hamas leader, Ismail Haniya was killed by Israeli agents. Iran president Ebrahim Raisi died in helicopter crash which raised doubts of Iran. These doubts strengthened after Hamas leader death. Iran Embassy was attacked by Israel in Damascus. As result, Iran did attacks in Israel. There are sanctions on Iran because of all this middle east crisis. In ongoing Russia Ukraine war, there is wheat export of Ukraine that has got cut off. There are

sanctions on Russia for
oil. It has raised inflation
at international level

SDGs, UN, NATO, COP29,
, Kyoto protocol, Paris agreement
, G7, G20, DB, AUKUS, ASEAN,
SAARC, SCO, & OIC, ECO and
many more organizations
are in efforts of resolving
external and internal conflicts.
Countries are also reforming
their ways to improve economic
and government situations to
prevent from internal conflicts.

When a country is
strengthened from inside, no
one can dare to see it
with evil intentions of going
for war. All need is to resolve
internal conflicts and being
united to survive and prosper
in this world of conflicts.
And this is only possible through
firm determination, reforms,
unity and struggle
