The year 2019 marked the Outbreak of Corona virus. WHO declared Ha global emergency and the pandemic engulfed the whole worldighou it took two or three brom this global catastrophe. Gradually world got back to its nomal economies Started recovering and businesses Starting hooming again. It would be incolled to say that world was able to defeat the pandenia but there are certain from of humans which eseits from day one of their existence however, man has bailed to root out & Such III - Traits consequently such diseases have turned chronic and have ensured the whole world . The worst of such diseases the world is bacing today is none other than corruption. Committee has permeated its roots doop into the Society and His aething busher by each passing day to brak its shackles. 91 is the the wald has withoused as 9t harms a person as an Individual and renders states as well as souther in chaos posing e 21 stential threat 10 40 in the international arena however there are mulhple ways that gloved to be prudent in eradicating the roop of correption from the soil
