In general elections, this year, millions of people have opportunity to cast their ballots. However, democratic probity is affected by misleading information (spread either intentionally or unintentionally), which scatters and erodes trust in electoral process. The propaganda against democracy is achieved either by AI-generated fake images or by anti-democratic agents, who change mentality of people and then people don't cast vote. Several measures can protect the public against mis-information; evidence-based campaigns are one of them. Address the question

Q5 what does Dikey's career teach us about the true nature of success in sports.

Dikey's life journey illustrates that sports is not related to achieve first place.

One, who gets first place this year, might not be visible on any level in the next coming years. But the task is to remain persistent.

2 One may not get first place every time, but what matters, is that he remains determined and struggles hard to earn not only medals and applauses but also to earn respect and then maintain that respect and admiration over years through your constant efforts.
