Qanoat Translation:-

Once African scholars said that when English came to Africa, they had innovation and we had land.

They said that they came here in order to give us prosperity.

We closed our eyes and when we opened we had innovation and they have our land.

Similarly, when social network science emerges, they had

Facebook and Whatsapp. They

said that this is free. We

closed our eyes and when

we opened our eyes we had

Facebook and Whatsapp and

they have our freedom and

personal information. Thus, whenever

something is free of cost we

had to pay its price by

giving our freedom.

Title: Schengen visa vs Pakistani visa.

It is a lame excuse of Schengen countries for Pakistani citizens visa applications that their dress are not perfect, documents incomplete or their intentions do not seem right in order to reject visa. This seems like a teacher declaring a student

fail without reading his paper. On the other hand, Schengen countries citizens are welcomed open-heartedly in Pakistan. They think Pakistani citizens will cause trouble in their interests, these persons are busy in submitting endless documents and fee. And if any Pakistani went to Europe he feels himself in hell. They even do not think that Pakistani are humans too maybe they think if they have to wait for the acceptance of Pakistani visa.
