Q.7: Translation:

once an African thinker said, when Britishers came to Africa they had ideas and we had land. they said we are here to make your progress. we blindly followed. But when we opened our eyes, we had ideas but no land. same case happened, when social networks emerged, they had facebook and whatsapp ~~and~~ for giving ~~free~~ in free. again we accepted the offer in free. And when we opened our eyes, we had facebook and whatsapp, while they had our privacy and freedom. Hence, the things are not in free, ~~but~~ they cost our freedom!

Q-2: precise

the issue of visa rejecting of Pakistani people from western countries is very serious and unbaised. Pakistani citizens being enthusiastic to serve western countries, get rejection due to strict western policies and red-tapism.

contrarily, citizens from western countries get enthusiastic welcome and enjoy our traditional foods. Besides all, if a man fulfilled all the heavy conditions and gets visa, ~~the~~ the prejudiced western view would force one to say "why did ~~we~~ I come here?"

the westerners ~~must~~ must treat Pakistani people humanly and keep themselves in place of Pakistani people to know the pain.

Title: Xenophobic policy of Europeans against Pakistani
