

Question No (3)

UNGA passed a resolution in favour of two state solution. Three European states also recognized Palestine as sovereign state. Critically evaluate the chances of two states solution or do you think Israel would continue as an Apartheid state?

Outline:

Introduction

Two state solution

Chances of Two state solutions

Apartheid state (status quo)

Analysis

Conclusion

UNGA has passed a resolution in favour of two states solution. Israel-Gaza's war has greater social, political, humanitarian and economic impacts on the region and the globe. Since ground invasion of Israel into Gaza strip in 7th October, 2023, a greater humanitarian crisis emerged and it could not be

stopped by global institutions and global players in the region. Its devastating impacts can be beyond the region too. Since passage of resolution of two states solution for Israel and Palestine, it is yet to be implemented. It is viable only staunch support from global players, hard stance of Muslim countries, political will from both sides, goodwill of all Arab and world community and an effective support of UN and international institutions as it has some hurdles in its way too.

"When this crisis is over, there has to be a vision of what comes next, and in our view it has to be a two state solution"

Joe Biden, President of USA

Two states solution is formation of two democratic states, live peacefully, side by side. This solution got recognition worldwide. It is the most viable solution as it is more likely to yield.

peace and stability in the region. Three countries of Europe Ireland, Spain and Norway has accepted Palestine as a sovereign nation too, which has brighter horizons for this solution.

Israel - Hamas war is not simply a territorial war, rather it is an resistance to oppression and an effort for sovereignty. Israel is using every inch to destroy infrastructure, social status, mental harmony and disorganize the Gazan people. This solution can be implemented by following the given approaches.
