An African philosopher once said that, when Britishers invaded Africa we had land and they had innovation. They told that we came here to make you prosper. ~~We closed our eyes. When we opened~~

~~We~~ - trusted blindly but after that they had our lands and we had innovation. Similarly, when social networking science emerged, they had facebook and whatsapp. They offered it free of cost. We trusted blindly and after realizing we had facebook and whatsapp while they had our freedom and private data. Thus, when something is <sup>offered</sup> free, it has cost of our freedom.
