(c) Likely to Proxy war.

This conflict is supposed as proxy war, either Hamas group and IDF groups are fighting on their own. Hamas is recognised as terrorist group, it is not official Palestinian army, this manifest would not to interfere.

Conclusion

The conflict may go with more participants of war in the form of groups. The situation is favourable to developments.

For the global expansion to this war, it is needed to participate by major powers among the three, but they are not.

Few powerful Islamic countries are saving their own interests and playing very safe, they are fearing from consequences.
