## Translation

From Urdu to English

Once, a thinker of Africa said that when the English came to Africa, they had technology and we had land. They said they had come to revolutionize the region. Natives trusted and gave no second thought to the idea. When natives came into senses they had technology and foreigners had land resources. Similarly when social media was created, they brought Facebook and Whatsapp. They said to residents it was free of cost. They blindly took that and when they figured out that they get Facebook and Whatsapp in exchange for their personal information and freedom. Hence, whenever a thing is free of cost it comes at the cost of one's own liberty.

Application of visa rejection

Rejection of Pakistani applicants for Schengen visa is based on ridiculous objections.

Applicants present their ambitions, yet they receive no because their documents, bank balance and intentions do not pass scrutiny.

On contrary, <sup>these</sup> people are overwhelmingly welcomed in Pakistan. EU countries opined that Pakistanis - who have left with little zeal after the process - are trouble makers. Schengen countries have to understand that Pakistanis are not danger. They will know hardships when they face same problem.
