Sajid Malik Sher-B B-076 current Affair Q. NOY Russia - china growing economic, strategic and geopolitical collaboration is an effort to potentially challenge the US led World order. Discuss. Introduction: Russia and china bother countries have been located in asia, although Russia is half in Asia but its influence in aria mutter a lot - Both countries growing his economy in very low time or short period. According to Russia ching take Independence later but grow his economy in very short time of Both countries are super power and give tough time to orgoing super power US. Geopolitically influence of both countries grow day by day like as sciently summit of different organization. China's CPEC in very important and clangerous for us and its OBRI also connected the Asia along with midelle east.

	Hoth countaies. China's CPEC is
