War Crime Explanations

"Any action or act that is against the rule of War set by United Nations is a Crime of War"

As to make peace in the world after WWII, several organizations were made. And, all these organizations set some rule in order to perform its primary action and fulfill his ambition. UN as one of the peace-making organization illustrates a Charter of humanity and define some rules that should be obeyed and if not it will be considered as war crime. Such examples of war crime can be seen in Gaza-Israel war like:-

(1) Killing Children & Females

Killing child below 18 and females is prohibited in war. Even in old times, when there was no formal procedure of any thing or no charter set of for wars even then it was prohibited.

In Gaza, Israel has mainly targeted these two. Around 40% of killed persons are of age less than 18. Thus, this is against UN charter and rules of human

By so it is a war crime.

(ii) Attack on Schools & Hospitals:-

People of Gaza after hit by air strike took refuge in different schools and hospitals. Many schools and hospitals were going with their normal schedule before Oct 7 2023. But then they were attacked by brutal forces of Israel.

Israeli forces mainly focus on these two and this is against law. As law stated that during war opposite forces cannot attack on the schools and hospitals. So, it is a war crime.

(iii) Attack on Refugee Camps:-

This is inhumane to attack on refugee camps. As people living in refugee camps are helpless thus they cannot do anything. So, it is violence of laws to attack on refugee camps.

All these evidences proved that attack on Gaza by Israel is a classical example of war crime.

→ Decision of ICJ:-

Firstly, this case was not highlighted in ICJ.

Secondly, When this issue is highlighted does not gain much attention.

Then, When it is discussed it was VETOD by USA.

ICJ, for several times asked for ceasefire but, Israel has ignored and continued his brutality.

Even the fund teams of UN had been attacked but, disappointedly there is no such decision of ICJ that can stop Israel.

→ Response of U.S.A:-

USA being the backbone of Israel donot even accept that Gaza is facing behavior that is inhumane. Even U.S.A just went with its own interest of strong

economy and nationalism.
