Literal meaning of Taheed:

"Worship and following of Allah Almighty and believing that his powers, blessings and ascriptions only belong to him." (Dr. Hamidullah)

"Taheed refers to a belief of Muslims that the universe is created by God and end of time will happen by the will of God. God's will is the ultimate will."

Importance of Taheed:

- 1- It is the first belief of Islam, no one can enter Islam unless he believes that Allah is the only Lord.
- 2- Every aspect of life emerges from Taheed so taheed is the instigator of life in human beings.
- 3- It is gateway to and from Islam.

Kinds / Aspects of Tauheed:

1- Oneness of worship:

Allah is the creator of mankind and Islam is the religion of Allah almighty and mankind learning from other creatures must abide by their creator. Birds, fishes and other animals worship Allah^{only} in their language, signs and symbols. As he is the creator and provider to all the living beings.

2. Oneness of Lordship:

This is universal rule that all of us are created by Allah and he is the only Lord of mankind. He is the boss and all his servants must submit their will to the will of the Lord.

"All praise is for Allah
Lord of all lords"

(Surah - AL-Fatiha)

3. Oneness in divisibility:

Tauheed also requires

a Muslim to believe that He is neither created by and nor will he produce any offspring.

لَمْ يَكُنْ لِّهِ وَلَدٌ

(3: 45)

"Neither he is created, nor will he produce offsprings."

Christianity believes that Jesus is the son of Lord due to his miraculous powers as Prophet and because he was created without any human father. So Christians call Lord the father of Jesus while Allah says in

"Havenot I created Adam

and Hawa without parents;

I created Jesus the same

way; it is not difficult for

Allah to do it again."

(abitoor 1A down 2)

(Surah Maryam: 11)

Impact of Tauheed on Human life:

i. Individual life:

• Love for Allah:

Tauheed brings love for Allah in the heart of the believer as Allah's believer would follow His orders and being kind and compassionate with his fellow beings.

"May Allah enlighten your hearts with his Noor."

(Muslim)

Prophet Muhammad (SAW) wished for his companions, who were true believers that Allah's love will bring prosperity to their life and its all because of submission to Allah's will.

• Patience:

Believing in Allah brings hope, tolerance and patience in human life. Before Islam Arab rulers were

Brutal with their slaves. Muslims before entering into Islam were in despair and Islam gave them a ray of hope.

Allah announced his rewards for the ones who will be patient

Allah says in Quran

كَبَرَ الْوَلُوْلُ وَالْكَلْمَلُ

(Al-Baqarah)

"No doubt Allah is with the one who is patient."

• Broad vision:

Islam orders his believers to be patient and kind towards Muslims and to overall humanity. It looks for a bigger goals and dream big for this world and hereafter. Earlier the

Bedouins of Arab were superstitious and conservative, specially in matters related to sanctity of women. Islam brought revolution and saved humanity from crisis.

Bravery:

Earlier the people of Arab were full of fear as they lost hope in their idols who could not save them from brutal rulers and they were looking for saviour.

Rebuttal to false expectation:

Allah orders man to be balanced in his expectations and worldly desires and orders him to rebut false expectations following footsteps of holy Prophet and his forefathers Ibrahim and Ismael.

"Have you seen those who

takes as his god his own

desire." (Al-Furqan)

Impact on social life:

Unity:

Tauheed united the Muslims as Muslim Ummah and brought hope, happiness to the Arabs living in dark and despair era.

The unification of scattered states of

Muslims was very much required for a prosperous future of Muslim ummah. OIC (Organization of Islamic Council) is the best example.

2. Kindness to mankind:

Islam teaches kindness to other fellow beings and to all mankind. It urges being virtuous and forgiving just as their lord.

Prophet Muhammad (SAW) said,

"Killing one person is equal to killing whole mankind."

3. Righteous and well organized society:

Islam and its main belief

Tanzeed encourages the man to be righteous and pious, and establishing a well-organized society that works for the cause of Tableegh.

- Cleanliness

Salat can only be offered .

with clean face , hands , feet ,

and do not loose interest .

that came in Quran 99 times. The first question that the
angels Munkir Nakeer will ask in grave
will be about namaz → Have you
completed your task of namaz?

Moral Impacts:

Apart from social and
spiritual impacts the moral impacts
of namaz cannot be ignored.

• Intention making:

The "neeyat" or intention
making teach goal setting,
planning and acting with full
concentration towards achieving it

• Humbleness:

The bowing down before
Allah five times a day teaches
humbleness and reduces arrogance
and attitude until it disappears
from the personality.

• Value of time

3x

Salaat is offered on time which teaches value for money. It teaches time management, discipline and punctuality.

• Value of Physical fitness

A physically fit person can offer salaat five times a day.

Man takes this strength casually unless fell sick and faces difficulty praying.

• Character building

Namaz has 13 major actions to be performed it teaches that various small characteristics build up a strong character.

• Guards against Satan and self:

Salaat guards against the evil thoughts, the inner self of

3.5

man and from harming others and
himself 'as when he is with us'
Satan stays away from believers.

Conclusion:

As Quraan says,

"Salat keeps away from me
and evils of Satan."

(Al-Ankaboot: 30)

It shows the significance of
salat in life, how it makes the
life of a worshiper easy (to live and
how it adds values to his Amaal).

Q.no.6

Discuss the status of woman. Elucidate.

Introduction:

Woman is recognized by Islam as a full and equal partner
of man in the procreation of humankind.

He is the father, she is the mother
and both are essential for life.

As Quran says

And for women are rights

over men similar to those

of men over women." 1

(Al-Baqarah : 226)

Quran endorses the partnership
of men and women not the
relation of master and servant or
subordinate.

Another verse of Quran says,

Enter into Paradise, you and
your wives with delight

(AL-Zukhruf : 70)

Status of Women before Islam:

Women were treated like subordinates, no thing of
beauty & with no wish and will,
no role in decision making.

- No legal status of women

- Selling daughters as commodities.

- Forced marriages.

- No ownership of child
- No property ownership
- No power to end marriage
- No inheritance of property right
- Daughters were burned alive in Arabs.
- Wives were burnt alive with dead husbands in Indian states.
- No reproductive rights
- Polygamy was common in Arabs

Status of Women in Islam:

- A complete personhood granted:

(or) For the first time in history women were treated as a complete person independent of male support. They were called companions, partners, better-halves, home makers by Allah and their status was raised by Islam.

Prophet (SAW) use to call his wives, "the queen of her house".

● Decision making rights:

Quran says,

"O you who believe! You
are forbidden to inherit
women against their
will."

(AL-Nisa: 19)

● Created from single soul, as men:

Allah reiterated and
reminded the mankind that the
forefather of both man and woman
is Adam (A.S) so how one offspring
is better and the other one is
worse

Allah created you from a
single person, his mate
and the pair (like seeds),

he created countless

men and women

(AL-Nisa: 1)

Rights of Women in Islam:

Rights while performing social role:

As a child:

Islam ordered fathers to be gentle with daughters and be soft-spoken in front of them. Prophet Muhammed used to stand up when Fatimah used to come and he used to spread his shawl for Fatimah to sit.

Prophet Muhammed said,

"One who raises three daughters well would

be like this (he

closed his two fingers

(together) in heaven."

(Sahih Bukhari)

Apart from that right to education was granted by Islam to girls. Arabs use to keep women illiterate earlier.

Rights in Islam as wife:

- Right to select her spouse on her own volition.
- Right to fix and demand Mahr from spouse.
- Called garnat to their men.

They (your wives) are your garnat and you are a garnat

for them.

(Al-Baqarah : 187)

- Strict rules for husbands on the subject of Married life
- Law of "Qiwamah" implemented for the first time that altered the concept of marriage for the whole mankind.

الرجال ينـوـلـون

Men are the protectors and maintainers of women. (AL Nisa : 34)

- Right to divorce (Khula).

Role as Mother and rights in Islam

• Respect

Islam gives respect to women as a mother who bear the child in her uterus for nine months faces complications and give birth to a living being. Allah appreciates this effort in Quran many times.

Quran says,

"Fear of Allah in respect of Muslims; particularly women."

(Al-Imran : 20)

• Right of mother over children as compared to father is paramount:

A person asked Prophet Muhammad, 'O Messenger of Allah, who is the person who has the greatest right on me with regards to kindness and attention?' He replied "Your mother", Then? He replied Your mother, Then who? he replied

6.

"your mother" Then who? He replied "Your father."

- God attributes his loves as love of a mother.

Allah has given mother the true love quality and he attributes his love as love of a mother in quran ; just will higher intensity.

~~"O my man, don't be hopeless, Your loves you seventy times~~

~~more than your mother."~~

(Al-Aa'ida: 9)

Economic rights

Islam gave so many economic rights to woman

- Independent ownership of child
- Female employment
- Inheritance from father, husband and son.
- Ownership of property and business.

Political rights

- Speaking for their rights in Jummah prayer.
- Equality with men in decision making
- Shahadah of two women is acceptable for believing.
- Social welfare by women is encouraged.
- Hospitality and medical care by women in wars is appreciated by Holy prophet.

Conclusion:

Islam has given so many rights to women but countries like Pakistan are striving to find a common ground between Islamic and democratic state. Some decisions are yet to be taken with the help of iJma' and ijtihad like Satli and Wanni practice.
