Jack Emith

From the past few years, humans are facing problems day by day, every morning comes with a new challenge and a new difficulty to overcome. If we take a bird's eye view Pakistan situation from the last five to ten years, there is not even

Subject verb agreement issues

a single day on which there is a peace everywhere, every Each person of # present on this globe is facing alot of different challenges which are very dangerous and needs alot of courage ~~an~~ but ~~th~~ now they are not possible to solve.

Some of these issues are human diseases, environmental issues (like pollution, ~~an~~ over population), poverty.

Nowadays all of these problems have a variety of solutions and all these solutions are provided by science.

Elaborate introduction

Knowledge d gained through observation and experimentations. Science observe and experience different problems and gives solutions.

Let's discuss about the human health. # There are many diseases

now discovered and cured due to science like hepatitis, Cancer, Aids etc. In 18th century thousands of people died in a city Pakistan everyday due to lack of treatment. Children were died in the age of zero year to 3 year, because they suffer diseases and not had a medical treatment. ~~Now~~ Every year 68% infants died, but now this death rate decreases as science invent new medicines for 99.9% diseases. Now food can be purify and bacteria free with different methods and a better food insures better living. ~~Exer~~ Along with that due to science a lot of environmental problems are solved that caused human deaths. ~~Some~~ One of these problems are is population pollution. As pollution causes diseases like asthma, allergies etc, can leads to death. Pollution is now almost controlled due to different scientific methods.

One of the basic factor in human life is environment and environment ~~was~~ is facing alot of problems as like global warming, natural hazards etc. In 21st century these problems are almost solved and have

General instructions to be followed to pass essay

1- Spend time on rightly comprehension of the topic, you won't pass the essay unless and until you addressed the asked part

2- Try to make your main heading in the outline from the words in the question statement
