Comprehension

Q-1

The main goal of AI research is creating intelligent machines that can do reasoning, knowledge representation, planning, learning natural language processing, perception and ^{have} ability to manipulate objects while general intelligence is long term goal. In computer science AI research is defined as study of intelligent agents; any device that perceives its environment and takes actions that maximize its chances of successfully achieving its goals.

Q-2

AI effect is a phenomenon where the scope of AI is disputed as machines are becoming increasingly capable to perform tasks that were previously considered difficult.

— 1 — 1 — 30

AI effect impacts the definition of AI as certain tasks requiring "intelligence" are removed from the definition of AI and AI is regarded as what hasn't been done yet.

AI's increased capability of performing intelligent tasks has impacted its definition over time.

Q-3

The history of AI research has been characterized as "AI winter" owing to several waves of optimism followed by disappointments and loss of funding. These losses were again followed by new approaches, renewed fundings and success. AI has gone through recurring cycles of failures and successes.

Q-4

Some of the traditional problems and goals of AI include reasoning, knowledge representation, planning,

learning, natural language processing, and ability to move and manipulate objects. They cover the areas of mathematical optimization, artificial neural networks, statistics, probability and economics.

Q5 (A)

"Punctuation"

When I look upon the tombs of the Great, every emotion of envy dies in me. When I read the epitaphs of the beautiful, every inordinate desire goes out. When I meet with the grief of parents, upon a tombstone, my heart melts with compassion. When I see the tomb of the parents themselves, I consider the vanity of grieving for those whom we must quickly follow.

(B)

Narration

John asked Collins if he had heard about the Alex that he had been denied the position of manager.

Collins replied with shock and said Alex was perfect for this job. John told him that they said Alex lacked experience which was total nonsense.

Collins showed disbelief and asked John if he had talked to Alex then. To this, John replied in positive and told him that it was a usual runaround. Collins suggested to get team support for Alex via Statement.

John agreed to it and said that they had to show that Alex had got team's support and he was the one.

Topic : The art of Oratory = Past and Present

It is impossible to tell the future of oratory. People use the word oratory with caution as ancient orators rendered great value and worth to this art. The ancient orators were very careful about words while today people don't care much about public speaking. Printing, broadcasting and growth in number of speakers has decreased the importance of ornate speech. People are too busy to spend time on perfecting their speech. Sir Winston Churchill was a great orator of modern age. He was extremely meticulous about his words. His speeches are expression of his great command on language and art of oratory. These speeches will remain as examples of best human speech and he'll be remembered as greatest orator of his age.

Q-7

Translation

Allah has bestowed Pakistan with the wealth of minerals. It is the need of the hour that we extract these minerals through mining, use them in making products and earn revenue by exporting them in International markets. Likewise, instead of importing agriculture products, we should process ^{our agriculture yield} ~~them~~ into industrial products and export them, so that we can generate more revenue and create more jobs.
