What is one china Two system policy? How US policy towards Taiwan is hurting it? What could be its possible implication? Give recommendation?

Introduction:

One china two system Policy was adopted in 1970's after civil war in china. Taiwan is sovereign state of china. Nevertheless, the external foreign affair involvement is hurting the sovereignity of the state. Furthermore, it is impacting the security of the entire region. Moreover, it is going to hurt the international trade and deteriate the supply chain of technology. Hence, the tension between china and taiwan has the for more implication geo regionally and internationally.

Date:_____ M T W T F S

1) One china two system policy

China is known as people Rebulic of china while Taiwan is known as Rebulic of China.

(i) Taiwan territorily of china

In 1980 Deng Xiaoping proposed this policy which states that Taiwain is territorily of China but it has its own independent government and policies to run the state affairs. Moreover, this step was taken for administrative reasons.

(ii) Foreign Policy of Taiwan

Taiwan can take charge on its foreign policy. It is independent in this affairs.

(iii) Domestic laws

Taiwan can propose its own domestic laws in the country

(iv) Independent Millitery

Taiwan also has its independent

Date:_____ (M)(T)(W)(T)(F)(S)

military.

(iv) Taiwan is not recognized as an Independent State Internationally

Taiwan is not recognized as the independent state in international community neither by USA or European union. It is still considered as sovereign state of Peoples china Internationally.

2) USA Policy towards China Taiwan

i) Containment of China

China has become the emerging economy in the world. It has become the 2nd largest economy. However, to contain China, USA is using Taiwan conflict for its own national agenda.

(ii) Supporting Taiwan on its Independent State claim

In recent years, Taiwan

Economic coercison on china due to

Date: M T W T F S

is claiming to be independent hence, USA is supporting it claim of Idependent state.

(iii) **Establishing Diplomatic ties with Taiwan**

Internationally Taiwan diplomatic ties are limited due to china pressure. **The Seetary of State Nancy Pleso visited** China before elections campaigns. ~~But as~~ she visited cha Taiwan amidst its clash with China over its independence claims.

(iv) **Taiwan Semi-conduction Industry**

Taiwan is the giant of exporter Semi-conducter Industry internationally. It is crucial in technology industry. one reason behind USA policy towards China Taiwan is to have control on this resources.

Date: _____ M T W T F S

3) China's Response on top diplomatic visits.

After the visit of USA secrary state, china performed extensive drill around the Taiwan. Morover, china fired few rockets to warn about the conseqquences of crossing the limits.

i) **Milileary Threat**

USA involvement in the Taiwan is increasing. Milileary threats to Taiwan.

ii) **Cyber Attack**: China has been accuseed of cyber attacks. The USA involvement will escalate these attacks.

(iii) **Diplomatic Isolation**

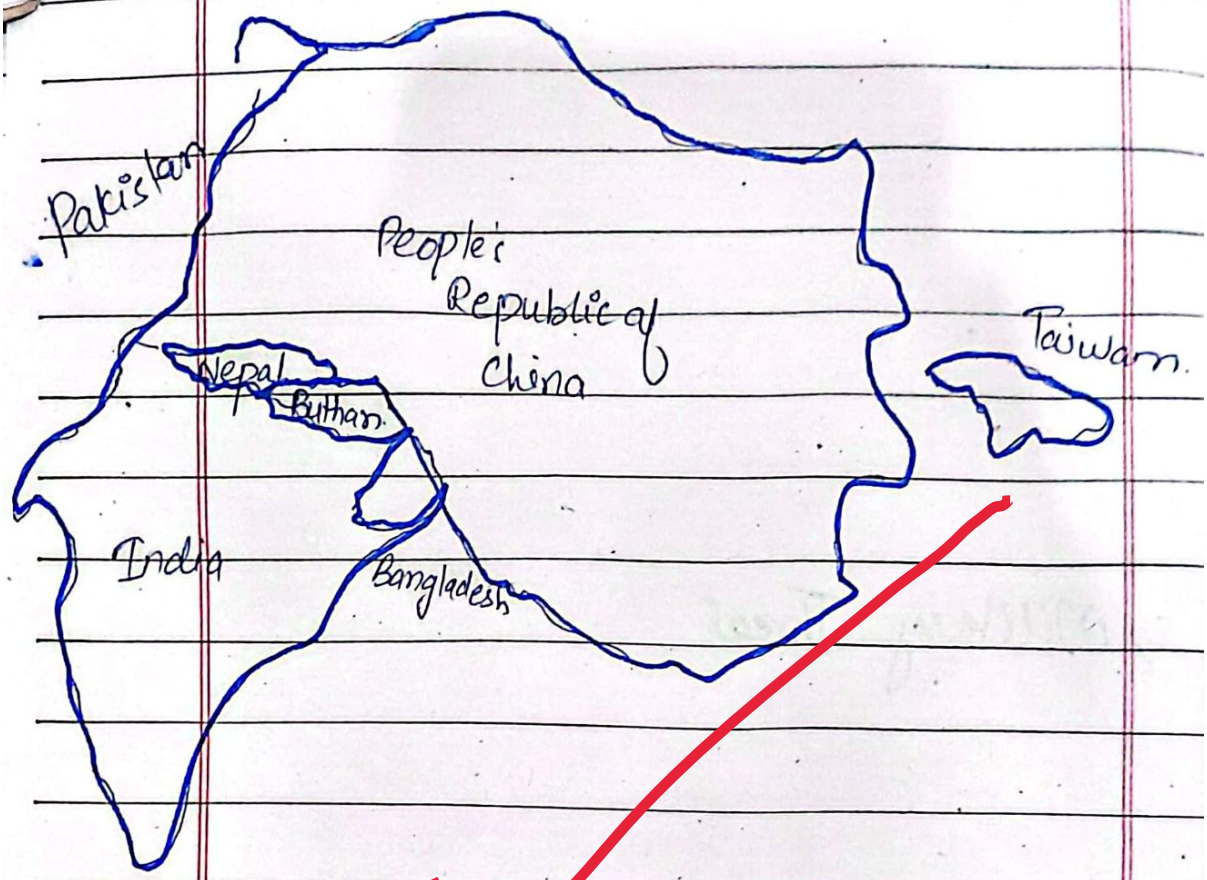
Due to China's pressure there is limited diplomation ties with china. It further isolate Taiwan

(iv) **Economic Coercision**

Chaina can impose its economic coercison on china due to

Date: _____ M T W T F S

economic influence in the region



Implication on region and International community

of war tension

1) **Escalation in Region**

This conflict can escalate the regional tension. As the conflicts impact the regional countries as well.

2) **Economic Impacts:** It can disrupt the economic supply chain as Also Taiwan is the largest exporter of semiconductors.

③ Proliferation of Arm Race : The tension between state will exacerbate the arm race in order to create the hegemony.

④ Escalate international conflict

Baloon conspiracy near USA state.

Pentagon is the threat to violating air international law of state.

⑤ Disrupt the regional peace and stability

Berry Buzan and olaf Presented the Regional security complex model. It states that to maintain global peace it is important to maintain regional peace. such conflic disrupt the regional peace.

Recommandation

1) Foreign countries refrain from infringing upon a state's internal affairs

USA should refrain from Trespassing for the sovereignity matter of state. Foreign affairs involvement deteriote the regional peace.

2) Diplomatic solutions

Both Taiwa and China

Date: M T W T F S

should resolve the difference through diplomacy.

3) **Multiparty Solution**

The conflict can be resolve through multiparty negotiations. Like involvent of thirdparty or organization.

4) **Peaceful cooperation**

Cabian Taiwan crisis can be negotiated on peaceful cooperation terms. This can be solve through effective Policies.

Conclusion

Taiwan crisis emerged in past few years. This crisis has regional and international implications in terms of security threats, economic crisis and regional instability. Nevertheless, the involvement of foreign affairs is exacerbating the conflicts. Hence, through mutual cooperation and mediation this issue can be resolved.

Q#8 SIFC is expecting huge direct Investment in Pakistan from Middle East and China. How do you see the chance of Investment in Pakistan

Introduction

Pakistan economic turmoils have become the biggest elephant in room. In order to catering the Balance of payment crisis, fical deficit and mountering foreign debt, Pakistan needs a huge foreign investment. SIFC is providing Pakistan a chance to revive its economy by investing in different sectors of state. Book Govern the Ungoverning, Ishrat Hussain explain that Pakistan is facing myraid of goverenance related issues but Pakistan economy is causing the great threat to sovereignty of state: Hence, SIFC will provide

Date: M T W T F S

Opportunities to apprehend the economic crisis.

SIFC and investment in respective areas

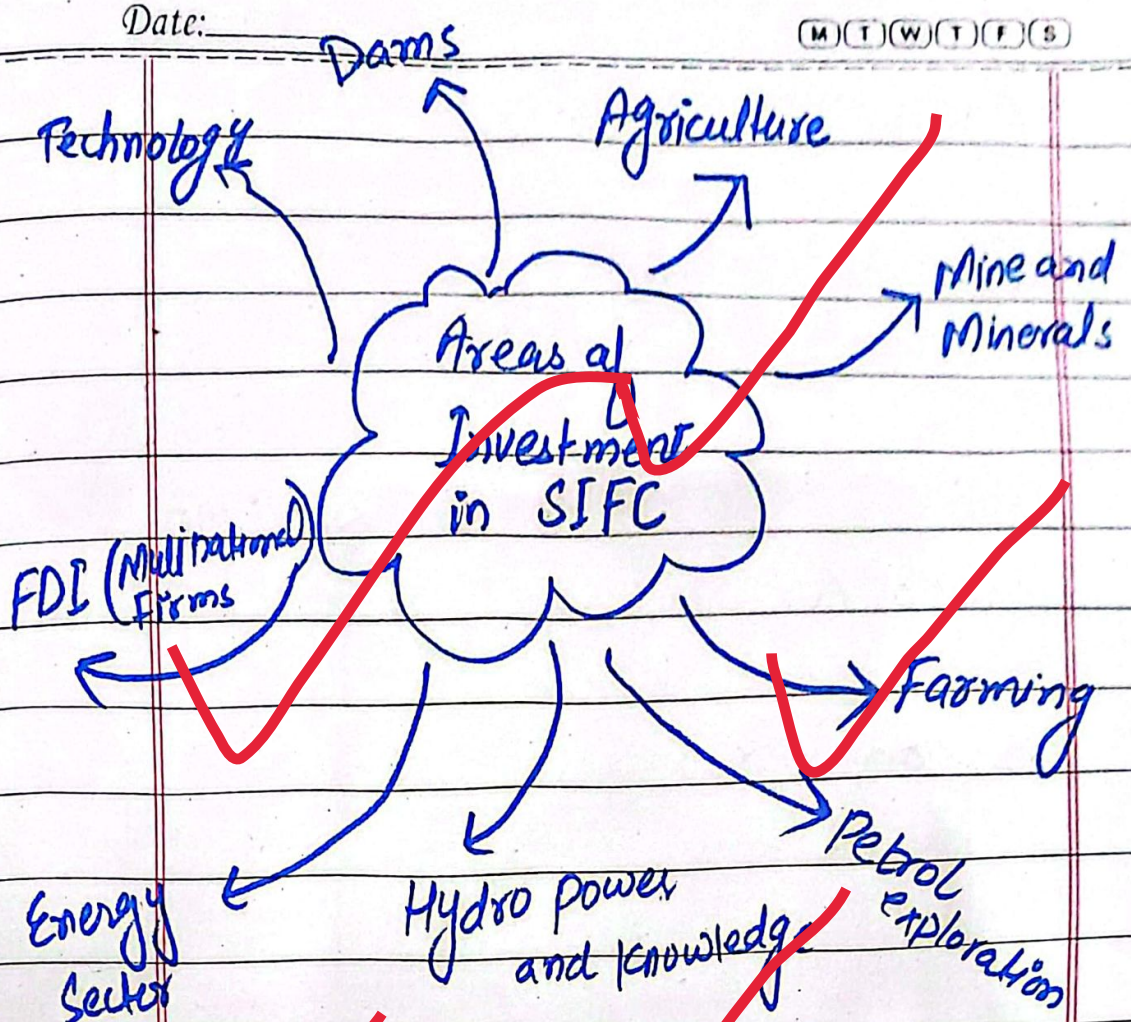
SIFC (Special Investment facilitation Center) is providing the platform to invest in different area of manufacturing and non manufacturing. Working and areas for investments are defined in Investment Ordinance 2002.

→ SIFC is chaired by Prime-Minister
→ Different Ministers will help as a facilitator to run the affairs.

Areas for Investment

Article (10) of ordinance explained the areas of investment for SIFC.

Date: M T W T F S



Investments From China and Middle East:-

It is expected that SIFC will provide $28 billion investment in 28 projects. It is predicte that it will help to uplif the economy of country from economic turmoil that Pakistan has been facing from decades.

Date: M T W T F S

Agriculture Sector

i) Corporate Farming

It is expected that it will increase the corpate farming in Pakistan. In Cholistan 10,000 Acr land of farming will upgrade in to the 85,000 Acr farming. The chanced corporate farming will help to cater the food insecurity.

ii) Live stock Industry

SIFC will chance the farming in the country most expected that there will investment on Camels.

(iii) Chanced the Technology

SIFC Particulary will invest in the farming industry

Date: M T W T F S

and will bring the advanced technology to improve the seed quality and farming methods.

Mine and Minerals

In Reko diq it is expected to invest and extract the mineral it automatically generate jobs.

Hydro power poject

It is predicted the there will huge investment in Dames Basha Dam it help in overcoming the water crisis and will help to reduce the energy cost.

Oil exploration Industry

Aramco proposed to establish the oil exploration industry in Pakistan. During deal with Russia regarding oil it will faced the challenge

Date: M T W T F S

of oil exploration. Hence, it will reduce the cost of oil exploration.

Energy Sectors

Pakistan imports 30% is based on energy project (SBP) Hence, investment in energy sectors will extra reduce its dependency on IPP.

Prospects for Pakistan

(i) **Apprehend the menace of food insecurity**

Due to floods Pakistan 1/5 area was hardly hit. It adversly effected the agriculture sector of Pakistan (Economic Survey of Pakistan, 2022-23). This investment in agriculture sectors helps to cater the needs of food

(ii) **Improve Balance of Payment**

It will improve the BOP as country's production will improve imports

Date.

(iii) **Obstruct the Poverty by creating employment opportunity**

SIFC will create million of job in agriculture, mines and mineral and Industrial section. It will reduce unemployment

(iv) **Reduce Energy sectors dependency on IPP**

Investment in agriculture sector will reduce the dependency on the IPP. Nelvertheles, improve and efficient technology and renewable engesy resources automatically improved energy effeen

Challenges to SIFC

i) **Political Instability**

SIFC will nave to face the challenges of political instability. As in Pakistan political parties work for party manifesto which hurt the country in long run.

ii) **Increase Surge in Terrorism**

In past few years there is rise in terrorism has been witnessed. Hence, uncertainty increase the risk and Investors demands more return

Date: _____ M T W T F S

(iii) **Judicial Activism**

Due to judicial activism Pakistan has to face heavy penality for Reko diq by (ICSID)(International center for settlement of International Disputes). Hence, it can pose challenges to SIFC as well

Conclusion

In Summation, Pakistan economy is adversly hit by multiple factors. However, only investment in different ~~fact~~ sectors and structural reforms can improve the condition of the country. SIFC is providing a gold opportunity to Pakistan to revive its economy. Hence, to ensure the economic growth and economic stability country can not rely solely on loan but Investment is crucial in these times.

Q6 What is loss and Damages fund concept floated on the platform of COP27? Critically evaluate the opportunities of the paraclide materialization of COP28? Also identify how could Pakistan be benefit from it?

Introduction

The COP is convene under the UNFCCC. This UNFCCC came into existence after Rio Summit in 1992. The purpose of COP is that importance of climate change aversi and mitigation measures are being discussed internationally. Countries take pledge to follow the necessary steps to mitigate the climate change impacts. Hence, COP 27 important steps were taken to create a loss and damages fund to help

Date: M T W T F S

developing nations to control climate disastrous impacts.

COP 27

Held in Egypt between 30 Nov to 12 Dec 2022. 9th this Conference of Parties Pakistan and other developing countries pledge for Loss and Damages fund.

Loss & Damages

Loss and damages fund is pooling the funds from the developed nations to help the developing country in mitigation of climate disastrous impact.

To cover the cost of Reconstruction and Rehabilitation

Awarding to (UNDP) developing countries are less contribute

Date:

of carbon emission but hardly hit by climate impacts. Alone Pakistan has face $30 billion loss idue to floods in Pakistan. (Economic survey of Pakistan)

To mitigate climate disastrous

As Pakistan Developing countries need funds to mitigate the climate impacts so for this purpose this fund was generated

To adapt the Sustainable Method

To adapt sustainable measures countries required funds to adapt these measures.

COP 28

COP held in UAE between 30 Nov to 12 Dec 2023. In COP 28. Countries agreed to generate the loss and damage fund to support the developing countries. For this purpose they generate the green fund.

Date: M T W T F S

Climate Finance under green Fund

Under (UNCTAD) united Nations comission on Trade and development countries pledges to materialized the $ 500 billion fund for loss and damages

Division of fund

USD 250 billion Mitigation
USD 100 billion adaptation
USD 150 billion loss and Damages.

Other Emporian pledges to counter the climate change in collision with this fund

Transitiong from from fossil fuels

COP 28 pledges to Phase out fossil fuels compelty till 2050. (This idea was Challenged by multiple orld Expert) This required to shift from non-renewable engy resources to renewable resources

Date:_____ M T W T F S

Credible target for renewable energy and energy efficiency

To Phase out carbon energy efficiency should be increased 4% annually and renewable energy should be increased by 2% annually

CHAMP

Coalition amplifier on multilevel Partnership. As to phase out carbon countries need to work on different project with enhanced cooperation

Pakistan and prospect of fund

1) Recharge Pakistan Initiative

USA with leading companies like coca cola and other will invest 77.8 million dollar in Indian Basin to control floods.

2) Transfer to renewable Energy resources

Rephrase heading

CamScanner

Date: M T W T F S

For pakistan there is target to shift to 60% renewable energy resources and 30% transport to electric vichels. Such target are not practical for countries facing economic turmoil.

Criticism on COP28

(i) Oil Producing Economy

Mostly, The COP28 held in UAE who is major economy who rely on export of oil and Gas. Hence, such country can not mercuculasly shifte from renewable to non-renewable.

(ii) Emparaclide target for developing Nations

For Pakistan it is not possible to drastically shift from non-renewable to renewable resources and electrical vichels. As Pakistan is already facing energy crisis

Date: M T W T F S

(iii) Absense of Bidding Agreements

Another criticism on the COP28 is the if its bidding countries are not pledge on bringing the required threshold.

Challenges of COP28

(i) Held in War conflicting Region

one of the challenge for COP 28 was that it was about to held on region where there is on going war Palestine and Israel

(ii) creation of loss and Damage fund paradicle implication
