# Indian Interests on IMBC

The IMEC holds promise of cementing India's energy security and serving as a market for Indian goods. India interests were from the Chall of Aden to the Malacca Straits. IMEC will expand India's sphere of Influence. It will extend fax beyond horn of Africa. India's influence extend into North Africa to Israel and eastern Mediter anean. After this, India will become a significant player in the Middle East geopolitics while IMEC will boost trade between EU and India and now India and Chulf Cooperation Council (GCC) reaching \$154.7 billion in the 2021-22. This is a 77.1. increment year on year after IMEC.

# Gulfand Sugal Interests

It is widely being recognined that availability of fossil feet is finite and one day they will no more be available In this milieu, the countries of Middle Bast have great opportunity to divessily from fossil fuel-based economies.

IMBO provide them adequate scope for transforming from oil exporters

# Future prospects of IMEC to becoming global hubs for tourism, investment and logistic. IMBC is the first major project under US umbrella. It is also direct counter bo China's BRI in the region. mroads Starting to adversely affect in the region. The MBC serves to regain the Middle Bast Gulf for the USA and realfrom its global dominance. he Bel considor als had the potential bo offset the dependence of Elizations energy needs. Russia for their Darison of BRIEIMEC IMEC has several advantages over BAI. First, BRI is designed to serve Common benefit of all the region. Second BRI aims at generating employence for Chinese companies remile Louise on generating employene
