is Israel - Hamas conflict.

The tussle between Iran and Kingdom of Saudi Arabia in Yemen has created dire consequences for the people living in Yemen. The proxy war in Yemen has witnessed aggressive assertions by the forces of Saudi and Iran. Houthi rebellions in Yemen are backed by Iran and the government of Yemen is backed by USA. Such assertions has led to the loss of hundreds of lives and has curbed the social development. However, China has mediated the <sup>adverse</sup> relations in March 2023 but no such actions are taken to strengthen the relations. Thus, proxy war in Yemen has led to the humanitarian crisis.

Start the topic sentence like, war between two states leads to loss of people's right to life. The innocent civilians bear the burnt of animosity between the two states as each target them due to ease. This results in innocents becoming collateral damage. Q.  
The sanctions over Iran by the United states have curtailed the social development in the country. Due to such sanctions, Iran is unable to participate in trade which leads to the economic stagnation, hence, curtailing social development. Along with this, western countries and even most of the Asian countries are not investing in Iran due to such sanctions. Iran-Pakistan pipeline is the case in point. Iran has done its work on the pipeline. However, Pakistan has refused to do in order to be in the good books of west. Such tactics by the nations lead to inability

None of these were indicators  
They were all conflicts, Indicator would be  
factors that indicates something

After exploring the indicators depicting human rights as the first casualty in the conflicts, it is imperative now to consider the factors that have given rise to such conflicts. First and foremost is the hegemonic motive of U.S and China.

The motive of U.S and China is to create hegemony in the globe which has led to such conflicts. The United States and China want to be a sole representative of the world. Due to this,

tug of war is being witnessed. One such example is the US-India and Russia-China nexus. They are backing the rivals of each other. This leads to the escalation of the conflict. U.S is supporting Israel to counter China's influence in the region. Since 1948, U.S has provided \$260 billion dollars to Israel. This results in the further escalation of conflict between Gaza and Israel. Thus, China-US rivalry paves the way for the conflict.

The aim of Kingdom of Saudi Arabia and Iran is to achieve dominance in the Middle Eastern region. which has led to the proxy wars. The Due to this, KSA

wants to normalize its ties with Israel to become the largest oil exporter. According to the Economist, De facto ruler of KSA has both economic and security interests in Israel. This results in the risk to Saudi-Iran coalition. Thus, the conflict to attain hegemony leads to humanitarian losses in different regions of the world.

India desires to be a sole hegemon in the Indian Ocean region. The aggressive assertions of India near Pakistan witness the growing influence of India in the region. To achieve its aim, India is seeking support from U.S.

U.S - India strategic partnership and Quadrilateral security Dialogue are the cases in point. Such agreements are strengthening India in IOR which has posed a threat to Pakistan. The possibility of further escalation of the conflict between Pakistan and India has increased. Thus, the motive of India to become sole representative has resulted in the escalation of dispute.

The resurgence of Russia as a global power has dire consequences on the world. This resurgence has contributed to the Ukraine - Russia conflict. After the disintegration of Russia in 1992, it became weak and fragile. However, the invasion

of Ukraine depicts the resurgence of Russia: West has provided almost 150 billion dollars aid to Ukraine yet it is unable to defeat Russia. This shows the growing power of Russia. However, the resurgence has led to the dire repercussions, marked by Ukraine crisis. Thus, growing power of Russia is a threat to human rights in Ukraine.

Israel's desire to occupy the whole Palestinian territory has also contributed to the conflict. Israel considers Palestine its homeland. As a response to operation Al-Aqsa storm by Hamas, Israel declared war. Multiple resolutions have passed for the cease fire, but, Israel's

only vision is to gain the control of Gaza strip. The conflict is ongoing and witnessing millions of lives. The motive of Israel has overlooked the rights of people living in Gaza. According to Antonio Guterres, it has become the 'graveyard of children'. This depicts the vulnerable conditions of Palestine.

While the factors that have given rise to such conflicts are undeniably challenging, there exists viable solutions to address the conflicts and to prevail peace.

It is important to promote diplomatic

negotiations in order to curb further escalation of the conflict. Such step can pave the way for resolution of disputes. The dialogue between Xi Jinping and Joe Biden is the case in point. Xi Jinping said; The world is big enough for the two super powers to grow together. Such dialogues should be arranged between Israel and Hamas on United Nation 377 resolution to promote peace on humanitarian grounds. Moreover, such negotiations have the power to resolve Ukraine crises. Thus, diplomatic negotiation can contribute to prevail peace in the world.

It is

essential to democratize the United Nations security council. It consists of 15 member out of which five are permanent members: U.K, U.S, China, Russia, and France. The resolutions can only be passed if P5 members are agreed. This leads to undemocratization. United States vetoed the resolution <sup>demanding</sup> for cease fire in Gaza. This ensures that the amendment in the United Nations charter is the need of an hour. Thus, democratizing the UNSC can resolve the conflicts.

Humanitarian crisis can be mitigated by providing humanitarian aid to war-torn areas such as Gaza and

Ukraine .U.S has curtailed aid to Gaza which has resulted in dire threats to the livelihood of people. Aid to the people of Gaza was provided through Egypt, however, it is not enough for fulfilling the requirements of people. This depicts that the conditions of people can be improved by providing them aid. Thus, it is essential to provide aids to the war-torn countries.

Ongoing conflicts can be mitigated by fostering the active participation of regional organizations. Such organizations include Shanghai Cooperation Organization, Organization of Islamic Conference and the like. Such organizations

can play vital role in curbing the active conflict in the regions. OIC called a session to demand the ceasefire in Gaza. However, it failed to bring the change. These organizations should play their role to resolve the Ukraine and Gaza Crisis.
