Q-1

(A)

Any kind of noise that interferes with the human life is called noise pollution. If this pollution is left unattended, it can pose harmful impacts on bodies and brains of humans and animals. In Pakistan, noise pollution is one of the big reasons that cause pain and misery to the people. In big cities and urban areas, noise pollution has reached a dangerous level. For example, according to the survey of Environmental protection agency of Punjab, the level of noise pollution has reached 91 decibels, while the maximum bearable limit is 75 decibels. It means that the physical and mental health of many people is already on stake.

Q-1 (B)

Translation

Nature has ingrained in human beings a strange system of ^{staying} hope and its continuous pursuit.

Nature has ingrained in human beings a strange system of staying connected to hope and its continuous pursuit. If one hope breaks, he holds on to another. If the second hope breaks, he holds on to the third and so on. This process goes on until he dies. Perhaps, if nature hadn't put in humans, the love of pursuit of hope; he would have ended his life on first disappointment. He would have died ~~to~~ due to hopelessness.
