time duration between the flood of 2010 and 2022. In August, 2010, heavy rain all across the country make a massive disaster in homeland. A massive flood destroyed roads, communication systems, individual residences, government and military setups were also under the water. But not only this, our neighboring country India also shifted its extra flood towards Pakistan. The 2010 flood finally gone into the Arabian Sea after multiple destruction. Furthermore, in 2022 a massive flood again makes country at its worse situation. This flood was 10 times stronger than previous one. In both the floods, 2010 flood was the past experience or learning from the past while 2022 was the way of the future or future goal, that how can we prevent our country from this previous issue. Way to the future is based upon the past learning. It is

DATE: ___/___/___

necessary for an individual to learning from the past for the way of future. Because individual usually introduced by his past. Past experience gives a clear direction to an individual for future. Future is based on previous knowledge of an individual. Past is the reflection of the future for an individual. Clarity about past is necessary for the future goals. Learning from the past called experience that creates an opportunity for future. There are some reasons behind the learning from the past for society and profession is way for the future. Because, society is based upon past experiences and future goals. Society receive experience by individual previous learning. Professional life based upon the performance of the company in past. Profession is combination of achievement like past experiences and vision like way to the future. Society and profession have struck

ethical responsibility for past experience and future goal. The responsibility of environment in learning past and execution in future is also very necessary. Countries foreign policies based on past experiences to decide the way of future. Political stability in the country is due to best previous learning with clear future goals. Climate change is the best example of learning from past and way for the future. Political philosophers give way for the learning from the past and way of future. Western philosopher gives direction to learn from the past and future goals. Muslim philosopher introduce religion to learn from past and future way.

Way to the future is based upon the past learning. If a person is spending his life like an individual, he need to learn some experience from his past to the best

way of his future. Similarly if a person is a part of a society or profession then it is necessary for him as part of society and profession to learn from past and implement it in the future. Similarly environment also the combination of individual, society and profession to give a way to future according to past experience.

In all this scenarios, western and muslim philosophers gives direction that how can we find the way to the future according to past learning.

Individual is usually introduced by his past. Because his past is the evidence of what an individual learn from it. While an individual goes for the jobs or interviews he experienced this situation. The first thing that require from an individual is what he learn from the past. This document name is Curriculum Vista or CV. It is the paper evidence that define an individual

past experience. This ev also distinguished him from other individuals. That's why individual usually introduced by his past.

Past experience gives a clear way to an individual for future. Because past experience is based upon learning that gives wisdom to an individual in the form of way to the future. There is an example of Quaid-e-Azam Muhammad Ali Jinnah that his previous political party congress is not according to his future goal regarding Pakistan. That's why he resigned from congress in 1920. That's why past experience gives the clear way to an individual for future.

Future is based on previous knowledge of an individual. Because individual receive clear direction of his future by the previous knowledge of his surrounding and his own learning. These things distinguished

him from other. Here is example of Sir Syed Ahmed Khan, the ideal of two nation theory. He know the value of english that's why he emphasised muslim to learn english, if you want to succeed. His knowledge or concepts about english was due to his working with Brit British persons. That's why future is based on previous knowledge of an individual.

Past is the reflection of the future for an individual. Because past performance of an individual clears the way for the future of an individual. Because an individual is known by his past. Here is an example of Indran Prime minister Modi, He was first time elected in 2014. That was an important time for both the career of Mr. Modi and his country. Due his past performance he was again second time elected in 2018. And now 2024 due to reflection of his past

DATE: ___/___/___

experts says that he will be a suitable candidate of Prime minister of India. These things are based upon the past experience that reflects the future.

Clarity about past is necessary for the future goals. Because individual clarity in mind about his past and future is necessary to make him a well known person.

Here is an example of Boxer, Muhammad Ali, who practiced twenty one year to make himself a world champion. His clarity about his goal makes his past challenging and future beautiful.

Learning from the past called experience that creates an opportunity for future. Because it is necessary for an individual to gain some experience from the past that makes him a unique personality. Here is

the world leader Nelson Mandela, he spend his twenty seven year in jail and learn about freedom. Due to his struggle in past he became the greatest leader in the world. That's why learning from the past called experience that creates an opportunity for future.

Society is based upon past experience and future goals. Because society is comprises of the combination of individual past experiences. Due to this society past experience gives direction to the future goal. Here is an example of China, et China is based on society whose past was very dark. But with their past experience now they are the second largest economy in the world. That's why society is based upon the previous experience. And these experience gives a society a glory in the world.

Society receive experience by individual previous learning. Because society is depending upon the individual examples. Here is an example of Wright's brother. They are two brothers who introduced aeroplane in the history of mankind. With their innovation society ~~was~~ was able to fly in the air. That's why society receive experience by individual previous learning.

Professional life based upon the performance of the company input. Because in corporate sector, performance is always matter. And performance in the form of input and output is based upon the professional life. The recent example of Pakistan telecommunication company limited (PTCL) purchased the telcelor. This is because of the best professional input and output of PTCL from past 2004 to now a days. That's why company input and output is very necessary for the professional

life of the company.

Profession is the combination of achievement like past experience and vision like way to the future. Because Society and profession have strict ethical responsibility for past experience and future goal. Here is an example of Allred Bank Ltd, who is continuously banks of the year award secured from last four years. This is because of the fully devotion and love with the duty of an individual with his professional life.

Countries foreign policies based on past experience to decide the way of future. If a country is in good relation with others, it means its foreign policy will be smooth. Here is an example of Iran, Pakistan, India gas pipeline. In the gas pipeline, India withdrawal from the commitment. Pakistan mashed with his political instability and Iran was alone in this

project. Due to this past experience the negotiation of gas pipeline still not full fill. Because of bad impression in this policy. In this issue, Russia took a step an release the Pakistan from fine, That's why countries foreign policies based on past experience that decide the way of future. Due to Political Stability in the country is due to best previous learning with clear future goals.

climate change is the best example of learn from past and way for the future. Because, it is challenge for whole the world and necessary to take concrete steps to tackle take this issue. Meeting of COP 26, COP 27, and now COP 28 have discussed previous experiences and future goals repeatedly. But have not reached to the conclusion. That's why learn from the past to best for future goal, climate change need this term seriously.

Western philosopher gives direction to learn from the past and future goals. Because, their words and theories, gives direction. J.S Mill, Bentham, Russo follow the footsteps of Aristotle and Plato. They gain experience from the past of Plato and Aristotle and give the direction that how a state or government can run. These philosopher gives us future goal by their past experiences. That's why western philosopher gives direction to learn from the past and future goal.

Muslim philosopher introduce religion to learn from past and future way. They give the wisdom of religion. Like Rumi, Al-ferabi give the direction from religion Islam, and tells us how to spend life or they set the future goal for us. That's why in the game of past experience and future goal muslim philosophers played a vital role.

DATE: ___/___/___

In conclusion, learning from the past is much more important for the future of the individual, society, profession and environment. There are lot of examples who give direction to all the components of society that has to manage their life according to their past experience. Or has to learn or gain experience from past and fit it in the best way of the future. Now it is our responsibility to learn the chapters of past and apply them on the practical of future.
