Any sort of noise which interrupts human is called noise. If this pollution is neglected, it will deeply affect the minds and bodies of animals and humans. Noise pollution is one of the big problem which is cause of pain and trouble in Pakistan. Noise pollution has reached at peak in city areas as well as in mega cities. For instance, according to the Punjab Environmental Protection Agency, that Lahore's noise has reached at 91 dB. Although, maximum capacity is 75 dB. It means many people's mental and physical health is on risk.

Q. No

(B)

Nature has kept hope in human instinct and manages such system to be binded with it. If one rope of hope breaks, he holds on other. If the second one breaks, then comes third. In this way, this system runs till his death. If nature does not keep it in human instinct, it may destroy man at his first hopelessness and die due to despair.
