Title: Sovereignty and its
Limitations

Municipal laws are used to govern individual as well as international laws gov state. but international law works differently because sovereign states and international legal system are opposite to each other. Sovereignty of state mean's states are superior and no rule can binding them but on the ~~other~~ ^{other} hand interational law has some rules which are binding them. This difference is resolved by theory of consent that all legal norms are established to govern sovereignty. Since international law is difficult to follow but it is necessary for peace on earth.

Translate the following passage.

Rise and fall is the story of every nation. But for this awareness and national integrity is important. After the second world war, Japan faced severe challenges. The destruction of the atomic bomb had already destroyed

two cities. But a greater tragedy for the Japanese was the humiliation of a king.

General MacArthur's scandalous attitude towards the king, ignited the spark of revenge within the Japanese. If not on the battlefield, Japan began to beat America in every other field. Finally, within a few decades, this nation was able to regain its lost position. There is a great lesson for Pakistan in this story.
