

PRÉCIS & COMPOSITIONQUESTION #02READ PASSAGE & ANSWER QUESTIONS:

Q1. How is sportsmanship conceptualized in Passage, what virtue does it encompass?

In The passage, sportsmanship is conceptualized in two ways. The one is unfair individual characteristics that includes fairness in their treatment, self-control while interacting with their competitors and showing reverence to one's. The second way to define sportsmanship is the reaction of an individual towards sports, game or player.

Q2. what are four elements of sportsmanship mentioned in the passage? what it is emphasized on balance?

The four elements of sportsmanship mentioned in the passage are being physically fit, a desire to win, equality and fairness in the treatment of other opponents and authority. Balancing the four

four elements of sportsmanship is pivotal because if an individual being a sportsman ignores any of these formerly mentioned elements, it will cause a dispute among them. Ultimately it will lead an athlete to the demise of true essence of sportsmanship.

Q3. What according to the passage, how can the desire to win sometimes conflicts with the elements of enmity and fairness?

According to the passage, the desire to win conflicts with the elements of enmity and fairness ^{because} every sports has some set rules and winners cheat with those rules for winning. They humiliate loser team through their sarcastic remarks on their performance. The winners subdue the loser team with their unjust treatment and by showing their gradisity.

Q4: How do some losee and bad winnee behaviours impact the perception of sportsmanship?

According to the passage, the behavior

associated with a sore loser is to blame others for their loss instead of accepting their own mistakes while playing. Similarly, a bad winner behavior is associated with ~~belittling~~ the loser's team while ~~boasting~~ about their win. Winner's behavior who belittle the loser's team and boast about their own win and criticize the performance of loser team.

According to the passage, these unjust behaviors ruin the spirit of sportsmanship and target the other players' self-esteem and self-confidence.

x - Vicissitude - Stagnation

PRÉCIS

Title: The Role of Media in creating societal chaos

Media plays an indispensable role in enlightening society but examples show that sometimes it creates confusion by spreading misinformation and the major factor behind this is particularly social media platforms. Because social media platforms provide a conducive environment to spread false information. Media shapes polarized public opinion either by oversimplifying or exaggerating the complex issues. Hence, this polarization

It leads a person to a dilemma. This uncertainty of perception happens because of two reasons. The one is unnecessary and ~~existen~~ persistent delivery of information on news channels that causes cognitive fatigue and diminishes people's power of critical analysis. While, the second one is negative construction of cultural narratives by media which targets societal norms and an individual's identity and social expectations. Through this act, media is deteriorating social structure and norms while prioritizing its own interests. If this role of media is left unbridled it will lead to a total chaos.
