

QUESTION NO: 1:-

A - Any kind of noise which interferes in human life ~~comes in~~ is classified as noise pollution. If this pollution is left unsupervised it can cause serious damage to the mind and body of humans and animals. In Pakistan noise pollution is one of biggest source of unease and distress. In urban areas and big cities, noise pollution has raised to dangerous levels. For instance, the survey report of Punjab's department of Environmental Protection reveals that noise ratio has reached 91 Db, while the bearable maximum bearing capacity is 75 Db. This indicates that mental and physical health of many people is already at stake.

B. Nature has installed the system of optimism and hope ~~strings~~ in humans in an unusual way. If one ray of hope breaks, he clings to another string of hope. If second hope breaks, he moves to third hope and this process continues as long as breathing continues. Perhaps if nature had not placed this system of hope and desire, he might have died with the first disappointment. He may have died in despair.
