(Test-1)

Title: London Society Vs as compared to country.  
The writer, in the above passage, describes compares society of London with other societies. The society of London does not ~~rate~~ value a person ~~&~~ on the basis of his financial resources. Rather it measures a person is valued according to the good wit, sensibility and understanding. While other societies, outside London, value people according to their quantitative wealth only, discarding their intellectual and social worth. Writer further wishes - that he would live in country if he wanted to spend his time on his own but he would prefer London if he wanted a good company because they do ~~not~~ value ~~&~~ accept a good opinion without counting how much wealth the person has.
