QUESTION #02

A. TRANSLATE PARAGRAPHS.

Any kind of noise that disrupts human life is called noise pollution. If noise pollution is left unchecked, it could pose serious threat to the mind and body of animals and humans. Noise pollution in Pakistan is one ^{among} the pain, stress and terrors causing agents. In urban areas and big cities, it has surged to a dangerous level. For example, according to the survey of Punjab Environment Protection Agency, ^{on average} noise level has reached to 91 db, while 75 db is considered acceptable. It means that mental and physical health of the masses is already at stake.

B. Nature has engrained such a strange system of keeping up hopes and trust in human nature that after getting disappointed from one side, he finds the second way and after that, the third one. In this way, his series of attracting

attaching hopes to God synchronizes with his breathing.

Maybe, if God has not put such a system of high expectations and hopes in human nature, he would have ended his life with the very first disappointment.
