

English Preci - Test - 2

Translation :

Any type of noise that creates disturbance in man's life is called noise pollution. If this pollution is leave without resolve, it can badly damage the human and animals' body and mind. Noise pollution is one of the big cause of pain, complexity and distress in Pakistan. It has reached on danger level in commercial and areas and big cities. For example, according to a survey of environmental protection agency 3/10 level of noise has reached in 910 in Punjab but its ^{desirable level} ~~maximum~~ ^{max} would be 75 Db. Its means that mental and physical health of many people are at on risk.

Naturally ~~had~~ man has hopeful nature and always connect with this.

A strange scene of hope and its connection of man in the nature of man has exist. If he has lost one hope, he ~~grasp~~ hold another. when it also

he hold another. So the process
 of is continued until his death
 If this process of hope did
 not exist in the men's nature
 he dies with end of first
 hope and he dies in disappointment
