Pakistan & faire => Question : 3 Keeping in view the ... subcontinent. Start with the summary of the Backgrown wer as introduction Before the emergence of Islamic reformists, Muslims in the subcontinent were facing a severe decline in their religious, social and political conditions. The was decline in Islamic knowledge and education, and Sufism and nysticism had become prevalent leading to un-Islamic practices Superstitions and folk practices had also keept into religious rituals and ceremonics compromising the purity of the faith. Moreover, Muslims were facing political decline, and their social conditions were deteriorating, with corruption, immorality, and unethical behavior ramport in society. The community was also disunited and fragmented, with sectorian and regionals divisions. Furthermore, Muslims were heavily influenced by non-Muslim cultures Such as Hindrism and European colonialism, and education was stagnant,

28 It was rule of congress -- evaluate. Ans Introduction: The period between 1937 and 1939 was a pivotal moment in the history of the Indian subcontinent. The Indian National congress, led by Jawaharlal Nehra and Mahatma Gandhi, laad just come to power in seven provinces of British India miking a significant milestone in the Indian freedom struggle However, this period also saw the seed of division and separatism being sown which would eventually lead to creation of a separate state for Muslims in the subcontinent Pakistan. The congress rule during. this period has been a subject of much debate and controvery among historians. Some agae that the congress refusal to accept Muslim league's demands for a separate homelands for Muslims was a major factor in the eventual creation of Pakistan. Others contended that the congress's policies and across during this

period were aimed at onsolidating Hindu dominance over Muslims, further alienating the Muslim community and paving the way for the two nation theory Background: In 1937, the Indian National congress led by Jawaharlal Nehru and Mahatma Gandhi, came to power is Seven provinces of British India. This was significant miestone in the Indian freedom struggle, as it marked the first line a nationalist party. had gained control over a significant portion of the country. Muslim league's Demands: During this period, the Muslim League, led by Muhammad Ali Jingh begin to acticulate its demands for a Separate home and for Muslims in India. Jinner argued that Hindus and Muslims were two separato nations with distinctive cultures

linguistic, and religious identities , and that a united India would inevitably lead to Muslim marginalization.

The congress's Response:

The congress's Response:

Unwilling to accept the Muslim League's demands. Insteads they proposed a federal structure for Endra, with significant autonomy of provinces. This proposal was rejected by the Muslim leagues which sawit as an attempt to maintain Hindu dominance over Muslims.

Provincial Elections:

In 1937, provincial elections
were held in British India, which
saw the congress emerge victorious in
most provinces. However, the Muslim
League performed poorly, winning only
a few seats this led to a
Significant shift in the political
landscape, with the congress gaining
confidence in its ability to represent

all Indians, including muslims. Muslim - Hindu Divide: The congress rule during this period also saw a significant increase in communal tensions between Hindus and Muslims. The Muslim league alleged that the congress was persuing a pro-Hindu agenda, which fuether widered the divide between the two communities. Legacy of congress rule: The legacy of Congress rule from 1937-1939 is controversial-While it marked a significant milestone in the Indian freedom struggle, it also contributed to the eventual creation of Pakistan. The congress's refusal to accept mustims leaguels demands and its perceived pro-Hindu bias further alienated muslims and paved the way for the Two Nations theory.

Conclusion: In conclusion the congress rule from 1937-1939 played a significant role in the creation of a separate homeland for Muslims in the Sub-continent While the congress refusal to accept Muslim Leaguels demands were a significant factor, it was not the sole cause of the creation of Parcistan. The complex interplay of political, economic, and social factors actimately led to the partition of India and the creation of Pakistan.
