imparting to an earning skill will stabilize one economically for a lifetime. Once a ^{beggar} man came to the Holy Prophet (PBUH) and asked for financial help. He (PBUH) gave him an axe and ordered him to go to the forest and cut the trees to prepare ^{the} wooden sticks. He did the same and brought the wooden sticks to Holy Prophet (PBUH). Upon this He (PBUH) said him to sell that wooden sticks into the market and advised him to adopt this profession to earn money. This is how, the Holy Prophet (PBUH) taught him a lifetime earning skill. This event gives us a lesson of learning and teaching the earning skills to make an honorable livelihood. Acquiring earning than capital now, so skills is more important family should teach the earning skills to children and allow them to learn the skills they are interested in. It is also family's responsibility to empower the female and physically disabled person by teaching

them skills suitable for them. Rich relatives should engage the poor relatives in economic activities instead of simply giving loans. Promoting new skills acquisition and partnerships in also necessary in professional landscape. Society as a whole can play its role by removing the deep-rooted beggary and stigma attached to some professions. Education sector ^{& Madrassahs} should impart skills to earn in students. The skills can be taught to uneducated and unskilled labour through vocational training programs. Governments can boost national economy by creating sources of income and attaining international expertise & technical assistance.

In this technically advanced era, investment yields nothing without proper skills required. Investing on the right time, right place, and right domain is a skill which makes the investment successful. There are four factors of production including

land, labour, capital and entrepreneurship, and this is the entrepreneurship which brings innovation and success. It is also the only production factor which is based on skill. A saying of an American investor John B. Neff shows the importance of skills in investment. He says, "I don't want a lot of good investments; I want a few outstanding ones." Hence, skills of earning play a great role in getting profit.
