Mock exam #1

Poor understanding of topic  
No research and analysis  
No structure.

## Topic

Artificial intelligence and  
governance: Navigating the  
future of Policy and  
Regulation

### 1 Outline:

- 1.1 Hook Don't simply write hook, write a short descriptor that describes your hook
- 1.2 What is Artificial intelligence? Don't define terms in intro
- 1.3 What is governance?
- 1.4 How AI and governance interlinked?
- 1.5 Thesis statement

Don't number these separately  
as they will all make  
one paragraph

Number your main heading

### 2 Navigating Future Policy: Importance of AI

The essay is not about AI on its own.  
Its about how AI is being used for governance  
especially in regards to future of policy and  
regulation.

- ~~2.1~~ In education department
- ~~2.2~~ In medical field
- ~~2.3~~ In Agricultural area
- ~~2.4~~ To govern state effectively.

### 3. Future Policy to run AI and governance.

Meaning of sentence is unclear.  
You have written it under the main head of "Navigating  
future policy," how does this relate to the main header??

3x1 By authorizing A9

3x2 By taking control of A9

3x3 By applying charges to use its latest version

## 4x Regularization of A9

4.1 By managing A9 through human

4.2 By ensuring the peace, stability and security

4.3 By following UN Charter

4.4 By legally authorized

4.5 By applying penalties

This has no relation to policy and governance

## Conclusion

## The Essay:

Once upon a time, an old man <sup>Tense</sup> goes to the mobile mechanics. He asks the mobile mechanic to fix his mobile. He says that, there is nothing wrong with mobile. An old man asks the question, then why do not my son call me?

Although AI, IT, change human being life completely but pose serious threat to the survival of mankind.

Although artificial intelligence plays crucial role to run the state, to teach people efficiently, but it has significant damages to mankind.

Artificial intelligence is an electronic tool that run by the instruction.

The instruction which are implanted in the machine. Then, that device run according to that information. It is helpful to the human being to make the work efficient.

Expression and tone is not academic. The tense is incorrect for this approach

Entirely irrelevant The topic is use of AI in governance, what does that have to do with threats?

Do not write definitions in the introduction

This should be written in past tense. Also very immature way of writing an anecdote

This is irrelevant

Incomplete sentence structure

Irrelevant  
Not suitable in Introduction

on the other hand, governance is the system through which a state or institution run. Through governance, a state can perform their work properly and get prosperity.

This is not a structured introduction. An intro should have attention grabber, the summary of outline and thesis statement.

According to your outline, this is a part of your introduction. An introduction is one paragraph.

Artificial intelligence and governance, these are interlinked because governance can be run smoothly with the help of modern electronic tool. With the help of AI, human being can perform their work effectively.

There is minimum chances to be wrong in the process.

Sentence structure

Don't argue on the basis of if

If a state or institution have stability and prosperity, then further applying the method of AI, the

Expression.

Unrelated to governance  
You are simply listing various domains of AI use irrespective of whether they relate to governance or not. Besides this does not relate to the outline nor with the topic.

peace in state can be enhanced. Because world is going to be advanced, there is also a critical need to govern the institution with modern electronic tool. So, AI and governance is interlinked.

which institution?

No thesis statement.

There is no such paragraph in the outline

Artificial intelligence have significant impact but it also have threat to mankind. By applying future policies like, to authorize the artificial intelligence, control the AI and apply the charges. It can make more efficient to use to govern the state and institution. It is also important to regularize the AI by managing AI tools, keeping peace, stability and security, by applying penalties. Due to future policies and its regularization, it makes more efficient and effective to use.

AI plays a significant role in different fields of life. It helps the governance to run the state effectively. In education department, there are number of opportunities to learn the skill and implement to their teaching methodologies. AI help for student to solve the question, practice their papers on

Irrelevant  
No relation to governance

chat GPT. It is helpful for teachers to learn new skills, method to teach the students in advanced method. Students can learn advanced courses regarding AI, its tools and its implication. As well as, play important role in medical field. It is easier to diagnose the diseases and to prescribe relevant medicine. This is helpful in visual operation to diagnose stone in critical part of body. It is also play significant role in agriculture and overall to govern the institutions of the states. Now, it is more easy to implant a hybrid seed and plants. They grow very fast and produce more yield as compared to the traditional method. The traditional method is implementing most of the areas, but if government follow AI method

areas and its beneficial areas.

He can deal it very efficiently.

Secondly, A9 must be regularize to maintain the peace, stability and security in the country.

Because a state can not run without peace and security

so it is most important for

government to prioritize the security & peace of the

country. For that purpose, it

is need to regularize the

A9. Because its latest version like Robotics can replace the human. Rather it is the invention

of human being, but at one time it will be more

advanced, so it is difficult

to handle it. It will act

like a master and human being

behave like a slave. So, it

is import to regularize the A9.

Thirdly, govt should apply the penalties if a man use it for wrong purpose, criminal activity,
