## Conclusion

# The Essay

Bell Hooks, a prominent American author and feminist in her book "Feminist Theory: from margin to center" said feminism "a movement to end sexist, exploitation and oppression." This quote refers that feminism is a social, political movement to achieve gender equality and end of sexual harassment and other inequalities. Feminism has addressed many issues related to gender equality. Women's role in politics, social work and many other sector has increased due to feminism campaign. Furthermore, now women has many opportunities to do job in various field to show their abilities. Moreover, digital media plays immense role in highlighting the issues of gender inequality. Like this, feminism also introduce

many new perspective regarding the gender equality. Intersectionality and inclusivity is biggest agenda for future feminism campaign. Moreover, Future, many gender-based violence will also be highlight. Addressing marginalized voices are more prominent factor in future due to social media. Moreover, technology has profound impact in enhancing gender equality. Despite of these, feminism has many challenge. due to technology. Online harrasment is big issue in struggle to achieve gender equality. Moreover, patriachal society still exists which is a hindrance in way of feminism. Futhermore, unequal representation in tech industries and leadership is a challenge. Therefore it is need to take concrete steps. In shorts future of feminism has different perspective about gender equality. And feminism face many challenges which remain in future if it did not adress.

Feminism is related to equality among different genders. Basically feminism is a political and social movement to reduce the gender gap. And addressing many issues related to gender equality. For instance, first wave of feminism was about legal and property right of women. Similarly, second wave of feminism had worked for reproductive right, work place discrimination and gender roles. Likewise, third wave of feminism was about intersectionality. Now, the future of feminism is highlighting the issues related to harassment, intersectionality, and many other issues about gender equality. Moreover, future of feminism has many challenges due to technology. And Patriarchal society is still exist in many countries. But, feminism had many progress like in creating awareness among genders about their rights, political participation and in labour sector.
