Q(3)

Q1 What factors determine the role of the courts in society?

There are multiple reasons factors that determine the role of the courts in society. Few of them are the perception of judges about their function, the expectation of the people known as public, the executive and the legislature. As courts play a crucial role in a society; they maintain justice

Date: _____

M T W T F S

in a society. Therefore, courts' role are determined by the trust of the people, the executive who presides the chair as chief justice and the legislature upon which the justice system prevails.

Q2 How do changing conditions and conceptions influence the role of the courts?

When there is a gap between judges' perception and others' expectation, it results in the differences: the differences in the judges' division of opinion on the concept of judicial function and the differences in the others' expectation of the role of judiciary. These differences bring change in the conditions and conceptions which result in the swaying of the judicial self-perceptions of their role and others' expectations of the courts which influence the role of a court: not static but dynamic.

Q3 What are some reasons the public might criticize the judiciary, according to the text?

§ According to the text, some reasons the public might criticize the judiciary are certain judicial rulings, statements and some general criticism. Most of the time, public criticism is tied to controversial cases in which judgement of the courts and comments of the judges are driven by emotional, ideological, social or political elements. These rulings are sensitive to certain segments of public which result in criticism. According to the text, judges are not only criticized for controversial cases but also they are generally criticized for failures, vices and negative attributes. Even the academic and profession critics also criticize judges for being timid and not active. They even use the title for a judge "socially reactionary"
