Importance of Character Building

Human Values: The Bedrock of Society

China spent enormous resources to build the Great wall of China. The aim was to protect the nation from outside aggression although China experienced numerous attacks. The wall guards were given bribery and the attackers used to cross ^{enter through gates} easily. China could build the wall but did not build the character of wall guards. Scholars of the history also ascribed that the down fall of the nations could be achieved ^{caused} through

The loss of conscious mothers, dedicated teachers, and esteemed role models leaves no one to teach human values.

destroying family institution, education and eliminating educators from society. This will

A nation that prioritizes entertainers over scientists and educators is doomed to fail.

keep the nations concept morally and soon peach to its down fall.

Precis should be one 3rd of original passage

Q. 1

01 Ans: The role of the courts in a particular society is based on the judges' perception of function, public expectations, the executive and legislature of the courts. Therefore, these factors determine the role of the courts in a society.

Explain more

Q. 2

02 Ans: Changing conditions and conceptions influence the role of the courts through numerous manners. First of all, the role of the courts in society is not confined to judiciary alone. It is influenced by political and other social institutions too. Thus, several cases are often charged with emotional, political and social basis.

Changing conditions and conceptions influence the role of the courts by causing shifts in both judicial self-perceptions and public expectations, making the role of the courts dynamic and constantly evolving rather than static.

A fast train raced along the border of the biggest cattle ranch in Montana. A passenger gazed at the huge herds, and when the train finally passed the other boundary of the ranch, he turned to the man who was sitting beside him and said, "What a huge herd of cattle!"

"I counted 13750 head." The man was surprised, "That's amazing!" He answered "I own that ranch and you are exactly right, I have exactly counted 13750 head of cattle." How were you able to count them so fast? "It was easy I just counted their legs and divided by four.")
