ESSA

plz follow grammatical rules here
first sentence is not following any sentence structure

~~Education being delivered in an online environment through~~
~~the use of the internet for teaching and learning. This~~
~~includes online learning on the part of the students that~~
~~is not dependent on their physical or virtual co-location.~~
 online learning is also known as distance education or learning
~~refers to the delivery of educational content and instruction~~

through the internet. It allows students to take courses and earn degrees remotely, without the need to be physically present on campus. An open university with an open-door academic policy, with minimal or no entry requirements. Open universities may employ specific teaching methods, such as open supported learning or distance education. However, not all open universities focus on distance education, nor do distance-education universities necessarily have open admission policies. A precursor to the open university was the University of London External Study System established in 1958. The university was a degree-awarding examination board and welcomed anyone who could meet its entry requirements and pay the requisite fees, including students from anywhere in the world. Open universities often have less hands-on learning opportunities than traditional universities, which can make it more difficult for students to gain practical skills and experi

it got currency

In fact, online education through open universities is a double-edged sword with both benefits and costs; however, efforts to address the challenges will ameliorate the situation. The concept of online education is not completely new, but it has gained currency back in the nineties.

Though open universities' online education was limited to a few affluent classes, technology advancement extended its horizons very soon. To obviate issues of online education, international organizations must come forward to promote digital literacy.

The strength of education through open universities lies in its flexibility and accessibility. Policies of open universities tend to accept any student, with no age limits and no prior education requirement. In some open universities, a student cannot complete a degree, but the credits they earn can then be transferred

(3)

the questions here do not convey any sense

towards an academic degree.

While open admissions (sometimes referred to as open enrollment) is a nonselective admission policy in which all students who have a high school diploma or GED (General Educational Development) certificate are accepted. colleges and universities that follow this policy typically including community colleges, open universities and some other online institutes. Many of these institutes focus on providing associate degrees, career certificates, and basic skill education, preparing students for entry level jobs, or allowing them to transfer to four year institutions. while some four year universities may have also open admissions policies, they are relatively less common.

avoid gossiping style please

No formal test requirement for education in open universities. open universities follow open

admission policies. There is a specific test are
required for admission in open universi-

ties. The student enrollment process without any
formal test for example in Allama Iqbal open

university admission is according to open ad-
mission policy. It means without any merit you
can take/get admission in open universities.

The second most important of education
in open universities is you can get education
without age limits. When you want to get
education you have opportunities to get admission
and enjoy your educational journey. The education
is equally important for all people without the
limits of age. The open universities provide
such opportunity to get education without
the limits of age.
